A codger once spoke of his hardships, so did the lonely urchin. A quitter once cried out her fears and so did the woman who was trafficked. A pauper once reached out for the stars, so did his sons. Where are these voices, those cries, those fears, those screams? People say they fade away with the dark times; people say they are somewhere lurking around their memories; people say they live in the minds of change; people say they are lost in dead eyes. People say a lot of things but I say that they are all preserved in this book of the Divine Reality. Frozen memories on paper, Entrapped teardrops in the words, Where do our fears go? How do our flaws grow? We keep coming back for more, But why does the evil inside cuts up all our hopes? The mask which hides our imperfections, Take it off and set yourself free, Free to absorb these worldly conceptions, These conceptions are beyond your fantasies, These conceptions are beyond your ambiguity, Beyond the suburbs of your soul, Beyond your preserved dignity, What comes there? I guess it is the Divine Reality

A Daughter's Desire, A Mother's Worst Nightmare tells the true story of one woman's quest as she struggles to preserve her arranged marriage by continuing in her abusive relationship. The names have been changed to protect the privacy of the people involved in the story. Shivani Ragunandan, a twenty-two-year-old college graduate, found herself betrothed into marriage by her family. Although it was not what she truly wanted, she went ahead with the wedding-only to find herself in a very unhappy marriage. Her husband was emotionally and physically abusive, cheating on her whenever the opportunity presented itself. Abiding by the rules of an arranged marriage in her Indo-Guyanese tradition, she was not allowed to file a divorce. She tried continuously to preserve her marriage to her twenty-seven-year-old husband. Although Shivani knew deep inside that this was not what she wanted, she feared her innocence, dignity, and reputation would be tarnished forever if she left her husband. Bound by cultural ties, she had no one to turn to but the celestial deities and her mother for guidance, faith, and strength.

The original impulse for groups to separate from society and establish communities of their own was religious. Though the religious side of this drive toward separation remains strong, the last two centuries have seen the appearance of secular communities with a socialist or anarchist orientation. In The Communal Experience, nominated for a National Book Award in 1973, Laurence Veysey explores the close resemblances between the secular and religious forms of cultural radicalism through

intensive observation of four little-known communities. Veysey compares the history of secular communities such as the early Ferrer Colony and Modern School, of Shelton, New Jersey, with contemporary anarchist communities in New York, Vermont, and New Mexico. Religious communes—"Communities of Discipline"—such as the Vedanta monasteries of the early twentieth century are compared with contemporary mystical communities in New Mexico. Distinctions between the anarchist and the mystical groups are most obvious from their approach to communal life. As Veysey shows, anarchist communities are loose, unstructured, voluntaristic; the mystics establish more rigid life-styles, focus on spiritual leaders, and hold community a secondary goal to self-realization. In a new preface written for this Phoenix Edition, he describes his return to a New Mexican mystical community and the changes that have occurred in the six years since his last visit.

This book is an ensemble of poems, all written randomly at random hours in random moods, posed by random situations. There is no pattern to any of it, that's the whole point - Life as it came, raw and fresh, put out in front of the world. If anything, they are all one in the way they have been penned down-in the moment, in deep honesty. This is a journal through life by means of poetry. Every poem has a lesson that inspired it and a memory that lives with it. 'A Poem that did not rhyme' is author's confession to the world, a proclamation of herself being that living, breathing poem that would rather be raw, unbound in rhymes and patterns than be chained to the rut.

Constitutionalism Justified analyzes leading Frankfurt School theorist Rainer Forst's theory of a basic right to justification, unique in combining insights from philosophy, constitutionalism, and legal theory. Drawing upon Kant's critical philosophy and Habermas's discourse theory, he has developed fresh perspectives on core topics like the concept of justice, the relation between modernity and emancipation, and human rights. The contributors to this volume explore Forst's work from three different perspectives: philosophy, legal philosophy, and

constitutional theory. The first part of this volume addresses the philosophical argument of the basic right to justification, including the influence of Kantian thought on this right, the deontological versus teleological fundamentals, the tension between moral pluralism and universalism, and the relation of the right to justification with social and distributive justice. The second part covers how the right to justification is embedded in constitutional and legal frameworks. It explores the implications that Forst's right to justification has for conceptualizing constitutional democracy and its foundations, and how the moral right to justification may translate into particular practices of justification that are constrained by a legal framework. This includes discussion of the value of constitutionalism in general, of the relation between the formal structure of democracy and substantive justice, of the inclusion of outsiders to the constitutional setting, and of proportionality analysis and judicial review as forms of justification. The book concludes with Rainer Forst's reply to his interlocutors, making the book a valuable source for future research.

We live in a fast-paced world where the demands of modern life often leave us feeling disconnected from our inner selves. In our quest for success and happiness, we sometimes lose sight of what truly matters in life - our inner peace, joy, and purpose. In this book, we explore the teachings of BK Sister Shivani, a spiritual teacher and a renowned speaker, who has helped millions of people around the world to awaken their inner selves and transform their lives. Her inspiring talks and teachings provide a practical roadmap for personal growth and development, drawing on the wisdom of ancient spiritual traditions and making it accessible to modern audiences. Through the chapters of this book, we delve into BK Sister Shivani's philosophy, and explore her teachings on inner awakening. We learn about the nature of the mind and its impact on our well-being, the power of positive thinking and affirmations, and the importance of self-awareness and mindfulness. We also discover the transformative power of letting go of negative emotions and cultivating forgiveness, and the role of spirituality in our inner transformation. Furthermore, we explore the concept of finding purpose and meaning in life, and the importance of self-care and self-love in our journey towards self-realization. We learn how to overcome obstacles and challenges, and how to build harmonious relationships with others. Finally, we explore practical strategies for integrating spiritual practices into our daily lives, so that we can live a life that is aligned with our deepest values and aspirations. This book is for anyone who is seeking to awaken their inner self and find greater meaning and purpose in life. It is a guide for those who want to live a more fulfilling and joyful life, and who are willing to explore the wisdom of ancient spiritual traditions in order to achieve this goal. We hope that this book will serve as a source of inspiration and guidance for all those who are on the path to self-realization, and that it will help readers to awaken their inner selves and transform their lives in a positive and meaningful way.

It has a collection of twenty papers by scholarly authors who have discussed various issues and subject matters that explore multiple perspectives from different disciplines, sub-disciplines and areas of expertise. The book provides rich theoretical descriptions and hands-on approach that is conceptual and practical and reflects advances in the literature on research, learning, and assessment. Multiple perceptions produce deeper understanding or illumination, viable solution or a product that creatively and innovatively accommodates different perspectives. As a maturing academic field, interdisciplinary studies needs to define itself to make the case that interdisciplinarity is, in fact, contributing something distinctive and valuable to the academy and to society. The movement is from the most general to the more specific, from breadth to depth. An Interdisciplinary insight is an expert's view on a particular problem that is based on research. This approach is produced when the interdisciplinary research process is used to create an integrated and purposeful result. In this book, disciplinary experts, scholars and students have to produce insights. The edited book highlights the valuable ideas, views, outlook, observations and thoughts in the form of chapters by authors from reputed institutions across India. It is a complete package, consisting of an interdisciplinary review of

diverse ideas and considerations highlighted by the authors belonging to different disciplines. Modern technological developments and globalization add to the complexity of problems and in response, an integrated approach is very much required. Each author's focus is on another innovative factor at a different level of analysis, using different theoretical frameworks, and different methodologies. These various aspects discussed and displayed through the interdisciplinary examination, in fact, stimulate and invigorate the aspiring research scholars, academicians, researchers to look deeper into some of the issues for further exploration. It will be, indeed, a very good reading the miscellaneous discussion about integrative research papers which is a sort of innovation—that is, change—in the means of knowledge production. Here the researchers thoroughly studied the subject and integrate the information to produce new understandings and meanings.

Against the Workshop is the first sustained critique of twenty-first century literary production in America under the MFA/creative writing program infrastructure. Since earlier critics like John Aldridge wrote on the subject, the creative writing regime has become vastly more institutionalized. Publishing has changed, but what does it mean for the quality of fiction and poetry? This book brings the subject completely up-to-date, by focusing on fiction and poetry generated during the last decade. The book contrasts the vast amount of sludge with the rare gems, to argue that the creative writing product is a debased one that will not stand the test of time.

*My Mother's American Dream* is a struggle portrayed! Dr. Shivani Chawla, the founder of Family Medicine Online, takes the reader on her journey toward establishing herself in her career as an Asian-American Woman in America. The book reflects on the challenges that arose along her way. She was only seven years old when she and her family arrived in the United States of America. It was new, different and intimidating! She recalls one day while sitting at the dinner table as her mother told her "you will be a doctor" to which her response was "okay". From that moment on she set her sights and energy into making that her reality. Though, it wasn't without its struggles and obstacles. How many of us have a Dream? How many have come to America's shores to make their dream become a reality? Her story is a relatable one for those who have faced and are facing similar hardships. This book was written to highlight her journey to become a doctor as an immigrant without any knowledge on how to do it or what it takes. Challenged by the difficulties which arose in the process all the while trying to melt into this melting pot of a culture different than what she had been born into, she fought to win despite many failures. A success hidden within her struggles sends a message that anyone can accomplish this if she can. You too can find your American Dream!
