## ENCYCLOPEDIA OF NATIVE AMERICAN HEALING

University of Arizona Press

In the two Books of *De divinatione* Cicero considers beliefs concerning fate and the possibility of prediction: in the first book he puts the (principally Stoic) case for them in the mouth of his brother Quintus; in the second, speaking in his own person, he argues against them. In this new translation of, and commentary on, Book One--the first in English for over 80 years--David Wardle guides the reader through the course of Cicero's argument, giving particular attention to the traditional Roman and the philosophical conception of divination.

*A Classical Manual* Penn State Press

The hero cycles of Arabic belong to the literary tradition of *The Arabian Nights* and can be seen as the popular epics of their civilisation. The second volume analyses their contents and literary formulae.

### **Being a Mythological, Historical, and Geographical Commentary on Pope's Homer and Dryden's Aeneid of Virgil** University of Georgia Press

Unhistorical Shakespeare argues against the ideas of difference that underpin historicist studies of the past and its desires, offering, instead, the idea of homo-history to engage with issues of narcissism, anachronism, and recursiveness in conjunction with sexual desire.

*Divination and the Shamanic Story* Presbyterian Publishing Corp

*Theatre and empire* looks at the genesis of British national identity in the reign of King James VI and I. While devolution is currently decentralising Britain, this book examines how the idea of a united kingdom was created in the first place. It does this by studying two things: the political language of the King's project to replace England, Scotland and Wales with a single kingdom of Great Britain; and cultural representations of empire on the public and private stages. The book argues that between 1603 and 1625 a group of playwrights celebrated a new national consciousness in works as diverse as Middleton's *Hengist, King of Kent*, Rowley's *The Birth of Merlin* and Shakespeare's *Cymbeline*. Specifically Jacobean interdisciplinary studies are few compared with Elizabethan and Caroline works, but the book attempts to redress the balance by offering a fresh appraisal of James Stuart's reign. Looking at both established and little-known plays and playwrights, *Theatre and empire* rewrites our understanding of the political and cultural context of the Jacobean stage.

## A BREATHTAKING GLIMPSE OF ETERNITY

Oxford University Press on Demand

*Divination and the Shamanic Story* Cambridge Scholars Publishing

*Folk-lore of Shakespeare* Cornell University Press

"Winner of the University of Delaware Press Award for the best manuscript in Shakespearean Studies, this study clarifies and revitalizes Shakespeare's *Cymbeline* for the modern reader through a rediscovery of the poet's artistic use of Renaissance myths, symbols, and emblematic topoi that give meaning to the play. Although mainly concerned with the rich classical and Christian iconography of *Cymbeline*, the book also rages widely over Shakespeare's dramatic and nondramatic works and beyond to the work of his contemporaries in Renaissance poetry, drama, art,

theology, philosophy, emblems, and myths to show parallels between the mysteries of this tragicomedy and other examples of Renaissance thought and expression. It uncovers actual representations in the visual arts of parallels to the play's descriptive and theatrical moments. These iconographic parallels are lavishly illustrated in the book through photographs of Renaissance plaster work, embroidery, metalwork, oil paintings, and sculpture, but primarily through woodcuts and engravings from English and Continental emblem books of the period. The visual imagery is carefully related to an intellectual explanation of *Cymbeline*'s complex Neoplatonic and Reformation themes." "The author begins with an extended definition of the genre of Renaissance tragicomedy, a form developed for Christian artistic purposes in Italy by Tasso and Guarini. Aside from the obviously similar characteristics of a happy ending and the presence of an oracle, *Cymbeline* shares nine other artistic aspects with the pioneer Italian tragicomedies *Aminta* and *Il pastor fido*, including the celebration of an Orphic ritual of death and resurrection. After a discussion of the Neoplatonic and Ovidian mythology embedded in the play, the book considers in detail the iconography of Imogen's elaborately decorated bedroom as a reconciliation of opposites, the iconography of primitivism and *Wild Men* versus courtier as a satire of the British court, and the iconography of birds, animals, vegetation, and minerals as evocative of the major themes of doubt, repentance, reformation, reunion, and regeneration in *Cymbeline*. The final objective of the dramatic conflict is mutual forgiveness and a happy marriage, all of which is achieved through temperance or the attainment of musical concord within the individual, the state, and the world. Although Shakespeare shows the five senses to be an inadequate means for his characters to recognize true virtue in a deceitful world, the sense of hearing is the most important in the play, since it allows participation in the four redemptive functions of sound, which ultimately leads to psychological harmony with the music of the spheres." "Simonds also demonstrates that because *Cymbeline* is essentially an Orphic tragicomedy designed to liberate the audience from melancholy, the play strives to bring delight through its theatrical reenactment of the initially painful Platonic journey from Eros to Anteros, from blindness to a vision of divinity, from discord to musical harmony, from spiritual confusion to joyful enlightenment."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

*Les Misérables* BRILL

This volume is a comprehensive collection of critical essays on *The Taming of the Shrew*, and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender, authority, female autonomy and unruliness, courtship and marriage, language and speech, and performance and theatricality.

## VOLUME 3

Weiser Books

Interpreting textual mediations of history in early modernity, this volume adds nuance to our understanding of the contributions fiction and fictionalizing make to the shape and texture of versions of and debates about history during that period. Geographically, the scope of the essays extends beyond Europe and England to include Asia and Africa. Contributors take a number of

different approaches to understand the relationship between history, fiction, and broader themes in early modern culture. They analyze the ways fiction writers use historical sources, fictional texts translate ideas about the past into a vernacular accessible to broad audiences, fictional depictions and interpretations shape historical action, and the ways in which nonfictional texts and accounts were given fictional histories of their own, intentionally or not, through transmission and interpretation. By combining the already contested idea of fiction with performance, action, and ideas/ideology, this collection provides a more thorough consideration of fictional histories in the early modern period. It also covers more than two centuries of primary material, providing a longer perspective on the changing and complex role of history in forming early modern national, gendered, and cultural identities.

Wardle's commentary will stand for decades to come as a worthy modern counterpart and complement to Pease's grand opus - J. Linderski, Scholia Reviews

*Nineveh and its Palaces ... New edition, revised and augmented, etc* Charisma Media

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

The Bathhouse at Midnight Bear

While staying at a cabin in the mountains, Anna Rountree was caught up in a tremendous vision of heaven. While there, she was met and taught by the angels around her and Jesus himself. In this book, Rountree provides readers with a stunning vision of what heaven is like and discusses the correlation between events today and what she saw in the spirit realm. *Heaven Awaits the Bride* is a combination of two previously released books, *The Heavens Opened* and *The Priestly Bride*, which together contain the account of Rountree's visions of heaven. Positioned to make the most of the extreme interest in heaven in the market place, this new book presents the information in an integrative study format, interspersing valuable notes within the next pages.

An African Reading of Exodus Litres

*Let My People Live* reengages the narrative of Exodus through a critical, life-affirming Africana hermeneutic that seeks to create and sustain a vision of not just the survival but the thriving of Black communities. While the field of biblical studies has habitually divided "objective" interpretations from culturally informed ones, Kenneth Ngwa argues that doing interpretive work through an activist, culturally grounded lens rightly recognizes how communities of readers actively shape the priorities of any biblical interpretation. In the Africana context, communities whose identities were made disposable by the forces of empire and colonialism—both in Africa and in the African diaspora across the globe—likewise suffered the stripping away of the right to interpretation, of both sacred texts and of themselves. Ngwa shows how an Africana approach to the biblical text can intervene in this narrative of breakage, as a mode of resistance. By emphasizing the irreducible life force and resources nurtured in the Africana community, which have always preceded colonial oppression, the Africana hermeneutic is able to stretch from the past into the future to sustain and support generations to come. Ngwa reimagines the Exodus story through this framework, elaborating the motifs of the narrative as they are shaped by Africana interpretive values and approaches that identify three animating threats in the story: erasure (undermining the community's very existence), alienation (separating from the space of home and from the ecosystem), and

singularity (holding up the individual over the collective). He argues that what he calls "badass womanism"—an intergenerational and interregional life force and epistemology of the people embodied in the midwives, Miriam, the Egyptian princess, and other female figures in the story—have challenged these threats. He shows how badass womanist triple consciousness creates, and is informed by, communal approaches to hermeneutics that emphasize survival over erasure, integration over alienation, and multiplicity over singularity. This triple consciousness surfaces throughout the Exodus narrative and informs the narrative portraits of other characters, including Moses and Yahweh. As the Hebrew people navigate the exodus journey, Ngwa investigates how these forces of oppression and resistance shift and take new shapes across the geographies of Egypt, the wilderness, and the mountain area preceding their passage into the promised land. For Africana, these geographies also represent colonial, global, and imperial sites where new subjectivities and epistemologies develop.

Shakespeare's Monarchies Ashgate Publishing, Ltd.

Presents a collection of three of Shakespeare's plays—"Pericles, Prince of Tyre," "The Two noblemen," and "Cymbeline."

### CLASSICAL MANUAL

OUP Oxford

Covers traditional medicine

**Pericles; Cymbeline; The Two Noble Kinsman** Oxford University Press

*Cymbeline* repeats many of Shakespeare's plot devices: villainous slander, homicidal jealousy, cross-gender disguise, a deathlike trance, the appearance of Jupiter in a vision, and final repentance, forgiveness, and reunion (Mowat, xiii), all of which result in an improbable story (Mowat, xv). As a romance, the play calls to mind the need for Coleridge's willing suspension of disbelief (*Biographia Literaria*, quoted in Greenblatt, 478). Yet it is still Shakespeare.

### CICERO ON DIVINATION. BOOK 1

A&C Black

The title of this book refers to the classic time and place for magic, witchcraft, and divination in Russia. *The Bathhouse at Midnight*, by one of the world's foremost experts on the subject, surveys all forms of magic, both learned and popular, in Russia from the fifth to the eighteenth century. While no book on the subject could be exhaustive, *The Bathhouse at Midnight* does describe and assess all the literary sources of magic, witchcraft, astrology, alchemy, and divination from Kiev Rus and Imperial Russia, and to some extent Ukraine and Belorussia. Where possible, Ryan identifies the sources of the texts (usually Greek, Arabic, or West European) and makes parallels to other cultures, ranging from classical antiquity to Finnic. He finds that Russia shares most of its magic and divination with the rest of Europe. Subjects covered include the Evil Eye, the Number of the Beast, omens, dreams, talismans and amulets, plants, gemstones, and other materials thought to possess magic properties. The first chapter gives a historical overview, and the final chapter summarizes the political, religious, and legal aspects of the history of magic in Russia. The author also provides translations of some key texts. *The Bathhouse at Midnight* will be invaluable for anyone—student,

teacher, or general reader—with an interest in Russia, magic, or the occult. It is unique in its field and is set to become the definitive study of Russian magic.

*The Arabian Epic: Volume 3, Texts* Greenhaven Publishing LLC

Before the massive environmental change wrought by the European colonization of the South, hundreds of species of birds filled the region's flyways in immeasurable numbers. Before disease, war, and displacement altered the South's earliest human landscape, Native Americans hunted and ate birds and made tools and weapons from their beaks, bones, and talons. More significant to Shepard Krech III, Indians adorned themselves with feathers, invoked avian powers in ceremonies and dances, and incorporated bird imagery on pottery, carvings, and jewelry. Krech, a renowned authority on Native American interactions with nature, reveals as never before the omnipresence of birds in Native American life. From the time of the earliest known renderings of winged creatures in stone and earthworks through the nineteenth century, when Native southerners took part in decimating bird species with highly valued, fashionable plumage, *Spirits of the Air* examines the complex and changeable influences of birds on the Native American worldview. We learn of birds for which places and people were named; birds common in iconography and oral traditions; birds important in ritual and healing; and birds feared for their links to witches and other malevolent forces. Still other birds had no meaning for Native Americans. Krech shows us these invisible animals too, enriching our understanding of both the Indian-bird dynamic and the incredible diversity of winged life once found in the South. A crowning work drawing on Krech's distinguished career in anthropology and natural history, *Spirits of the Air* recovers vanished worlds and shows us our own anew.

There is a common but often unspoken arrogance on the part of outside observers that folk science and traditional knowledge—the type developed by Native communities and tribal groups—is inferior to the “formal science” practiced by Westerners. In this lucidly written and humanistic account of the Oodham tribes of Arizona and Northwest Mexico, ethnobiologist Amadeo M. Rea exposes the limitations of this assumption by exploring the rich ornithology that these tribes have generated about the birds that are native to their region. He shows how these peoples’ observational knowledge provides insights into the behaviors, mating habits, migratory patterns, and distribution of local bird species, and he uncovers the various ways that this knowledge is incorporated into the communities’ traditions and esoteric belief systems. Drawing on more than four decades of field and textual research along with hundreds of interviews with tribe members, Rea identifies how birds are incorporated, both symbolically and practically, into Piman legends, songs, art, religion, and ceremonies. Through highly detailed descriptions and accounts loaded with Native voice, this book is the definitive study of folk ornithology. It also provides valuable data for scholars of linguistics and North American Native studies, and it makes a significant contribution to our understanding of how humans make sense of their world. It will be of interest to historians of science, anthropologists, and scholars of indigenous cultures and folk taxonomy.

W. W. Norton & Company
