Seminar paper from the year 2015 in the subject English Language and Literature Studies - Literature, grade: 1,3, University of Erfurt (Literaturwissenschaft), course: Multicultural Britain: Class & Ethnicity in Recent Fiction, language: English, abstract: I am interested to find out within Hanif Kureishi's "The Buddha of Suburbia" if Kureishi made racism a topic in the novel and if it is intended or if he might think along different lines. To find an answer to these questions I will start with a definition of racism. Therefore, a short look into the history of the term will lead us to the current understanding of racism and the topics connected to it. When the understanding of racism within the bound of this work is defined, the work on the novel starts and I will quote different passages where racism becomes obvious. The third part of this work examines if Kureishi intended to write about racism or if it happened unintended. To find an answer for this part I will focus on Kureishi's biography to find probable parallels, and at the society in London at the time, as well as the politics. After these three steps a conclusion will be drawn to answer the question of the beginning.

Essay from the year 2011 in the subject English - Literature, Works, grade: 2.2, Churchill College, Cambridge, language: English, abstract: A consideration of Kureishi's breakthrough novel as a bildungsroman and a consideration of all the barriers in English society to the protagonist's success. 'An Englishman, almost': Hybridity and Initiation in Kureishi's 'Buddha of Suburbia' GRIN Verlag The centrepiece of Hanif Kureishi's brilliant new collection of fiction delves into the fascinating concept of personal identity, and the extent to which this is rooted in our physical being. Middle-aged playwright Adam is amazed to be approached by a shadowy organisation and offered the chance to trade in his decrepit body for a much younger model. He takes up the offer for a six-month period, and his consciousness is duly transplanted into the handsome body of his choice. But Adam soon finds that his new flesh brings with it grave and unforeseen dangers . . .

One night, when I am old, sick, right out of semen, and don't need things to get any worse, I hear the noises growing louder. I am sure they are making love in Zenab's bedroom which is next to mine. Waldo, a fêted filmmaker, is confined by old age and ill health to his London apartment. Frail and frustrated, he is cared for by his lovely younger wife, Zee. But when he suspects that Zee is beginning an affair with Eddie, 'more than an acquaintance and less than a friend for over thirty years,' Waldo is pressed to action: determined to expose the couple, he sets himself first to prove his suspicions correct - and then to enact his revenge. Written with characteristic black humour and with an acute eye for detail, Kureishi's eagerly awaited novella will have his readers dazzled once again by a brilliant mind at work.

Kureishi's novel *The Buddha of Suburbia* has become a world-acclaimed masterpiece ever since. Its protagonist, Karim, takes the reader on his riveting journey to discover and explain life of the seventies in and around London. The author masterfully depicts the multiple cultural facets this time had to offer and creates a plot replete with stories of ethnicity, class and gender. However, one element seems to be of peculiar importance in its reoccurring implementation within the story - music. This paper is intended to examine the element of music and attempts to determine the role it plays within the world Kureishi illustrates. In order to fully grasp the element of music within the book it will be necessary to have a wider look on the phenomenon first. How can music in a most general sense be described and what makes it such a meaningful subject matter for scientists of linguistics, philosophy and anthropology? In a second step the paper will try to find reasons why Kureishi might have decided to use this motif at such length and what messages he tries to bring across. However, the major part of the paper will, of course, be dealing with the novel: What are the major themes that are related to music? In how far is music affilia"

This collection provides a unique and comprehensive historical overview of how masculinity has been constructed within national literature. Through a sustained focus on the nexus between gender, sexuality, language, and literature for the construction of identity, it represents an important contribution to the theoretical understanding of key British literary texts from the perspective of masculinity studies.

**The Experience of Music in the Buddha of Suburbia** Faber & Faber

Birmingham, England, c. 1973: industrial strikes, bad pop music, corrosive class warfare, adolescent angst, IRA bombings. Four friends: a class clown who stoops very low for a laugh; a confused artist enthralled by guitar rock; an earnest radical with socialist leanings; and a quiet dreamer obsessed with poetry, God, and the prettiest girl in school. As the world appears to self-destruct around them, they hold together to navigate the choppy waters of a decidedly ambiguous decade.

Bachelor Thesis from the year 2017 in the subject Didactics - English - Literature, Works, grade: 2,0, Carl von Ossietzky University of Oldenburg (Anglistik und Amerikanistik), language: English, abstract: *The Buddha of Suburbia* is a novel set in London in the late 1970s. On the verge of hippie culture, popular discontent and disorientation lead to a more nihilistic and destructive approach of cultural identity, namely punk. More and more people start to dress themselves in black, ripped clothes, attempting to revolt against conformity and the machinery of consumerism. The narrative is centred around Karim Amir, an Indo-British teenager whose family is disintegrating due to the fading connection between his parents. "His father's escape from this disaster is to become *The Buddha of*

Suburbia, mouthing trite Indian spiritual sayings for desperate middle aged suburban housewives and the like." It is due to the developing romance between his father and one of his hippie fellows, that Karim is eventually "introduced into the whirlwind of London punk and social life and then thoroughly swept along the tide, ultimately achieving a measure of personal success as all around him flounder in overindulgent self-indulgence." Though beginning "with the left-overs of the hippie generation, the novel ends not even a year later; punk, however, has already been bitten, swallowed, and spat out." Consequently, *The Buddha of Suburbia* addresses two subcultures, the hippies and the punks. Even though both are viewed "as superfluous and too willing to sell their values for the consumption of mainstream society", they ironically end up becoming embodiments of popular entertainment. This development of a radical subculture embracing a marginalised position in society towards a mainstream culture, deserves to be investigated thoroughly.

Seminar paper from the year 2009 in the subject English Language and Literature Studies - Literature, grade: 1,3, University of Bamberg, course: London in Literature through the Ages, language: English, abstract: Being one of Hanif Kureishi's most famous works, *The Buddha of Suburbia* has been discussed numerously in academic writing. Up to now, most scholars have, unfortunately, only focussed on the most apparent topics of hybridity and racial as well as migrational identity. Although fairly striking, only few have paid attention to the British class system that is portrayed in the novel, and if they have, only in passing. This paper is not intended to be added to this long list. I rather want to concentrate on how diverse and comprehensively the topic of class is approached by Kureishi, how class is depicted. For this reason, I want start with some more general facts about lower middle class, but will try to directly compare them to the contents of *The Buddha of Suburbia*. Secondly, I aim to show how, especially, class is depicted and to describe what makes someone belong to a certain class. How is affiliation expressed and how can one distinguish from other social groups? What does influence our thoughts and beliefs, and why do people want to break out? In regard to this, I will pay special attention to how the suburbs are presented in the novel and to what extent they differ from London. Finally, I want to examine in how far London offers a chance to flee suburbia and lower middle class influences. Does the anonymity of England's capital provide the basis for a new self, to create something new, and leave the past behind? Do people have to surrender, not to say sacrifice, their old identities in order to make it in London? What is the price for climbing the social ladder, and can one find a new, but genuine, self after having left the old behind? My paper shall answer these questions, it seeks to unfold some of the complexity of Kureishi's debut novel and to offer

Described in a recent New York Times Magazine profile as a "postcolonial Philip Roth," Hanif Kureishi first captured the attention of audiences and critics in the 1980s with the award-winning novel *The Buddha of Suburbia* and the films *My Beautiful Laundrette* and *Sammy and Rosie Get Laid*. In three decades of acclaimed work, Kureishi has written fiction and films exploring a series of interconnected themes about identity and desire—from Islamic radicalism to kinky sex, and from psychoanalysis to the relationships of fathers and sons. After discovering an abandoned manuscript of his father's, hidden for years, Kureishi was compelled to turn his "unflinching perspective" (Time Out) onto his own history. Like Roth, Martin Amis and Geoffrey Wolfe, who also have written books about their fathers, Kureishi wanted to understand and perhaps to reconcile. *My Ear at His Heart* offers remarkable insight into the birth of a writer, chronicling how Kureishi's own literary calling emerged from the ashes of his father's aspirations. And so begins a journey that takes Kureishi through his father's privileged childhood by the sea in Bombay, through the turbulent birth of Pakistan and to his modest adult life in England—his days spent as a civil servant, his nights writing prose, hopeful of one day receiving literary recognition. "A beguiling and complex tale of fact, fiction and family tensions" (The Guardian), *My Ear at His Heart* was published to great acclaim in the United Kingdom in 2004 and went on to win the prestigious Prix France Culture Etranger. Now, this profound work from one of the most compelling artists of our time is at last available in a Scribner edition.

The hero of Hanif Kureishi's debut novel is a dreamy teenager, desperate to escape suburban South London and experience the forbidden fruits that the 1970s seem to offer. When the unlikely opportunity of a life in the theatre announces itself, Karim starts to win the sort of attention he has been craving - albeit with some rude and raucous results.'One of the best comic novels of growing up, and one of the sharpest satires on race relations in this country that I've ever read.' Independent on Sunday'This is exactly the novel one hoped Hanif Kureishi would write: utterly irreverent and wildly improper, but also genuinely touching and truthful. And very funny indeed.' *The Saleability of Punk Subculture in Hanif Kureishi's "The Buddha of Suburbia"* GRIN Verlag

Hanif Kureishi already has introduced Americans to new fictional territory in his two films, *My Beautiful Laundrette* and *Sammy and Rosie Get Laid*, and in his novel, *The Buddha of Suburbia*. His latest screenplay, *London Kills Me*, which he describes as "a story about two guys looking for these shoes," returns viewers and readers to London streetlife and culture that only Kureishi could reveal. This collection includes his three screenplays as well as essays about the background of each film or life on the set or the hilarity of the Academy Awards in Hollywood. In addition, Kureishi has written about the Beatles--a comic commentary on class and culture in England. Together these essays and screenplays illuminate the remarkable imagination and wit of an extraordinarily acute and irreverent social analyst who has secured his place at the forefront of both the film and literary worlds with his uniquely recognizable voice.
