Romulus Springer

A New York Times bestseller! It is 2001 in New York City, in the lull between the collapse of the dot-com boom and the terrible events of September 11th. Silicon Alley is a ghost town, Web 1.0 is having adolescent angst, Google has yet to IPO, Microsoft is still considered the Evil Empire. There may not be quite as much money around as there was at the height of the tech bubble, but there's no shortage of swindlers looking to grab a piece of what's left. Maxine Tarnow is running a nice little fraud investigation business on the Upper West Side, chasing down different kinds of small-scale con artists. She used to be legally certified but her license got pulled a while back, which has actually turned out to be a blessing because now she can follow her own code of ethics—carry a Beretta, do business with sleazebags, hack into people's bank accounts—without having too much guilt about any of it. Otherwise, just your average working mom—two boys in elementary school, an off-and-on situation with her sort of semi-ex-husband Horst, life as normal as it ever gets in the neighborhood—till Maxine starts looking into the finances of a computer-security firm and its billionaire geek CEO, whereupon things begin rapidly to jam onto the subway and head downtown. She soon finds herself mixed up with a drug runner in an art deco motorboat, a professional nose obsessed with Hitler's aftershave, a neoliberal enforcer with footwear issues, plus elements of the Russian mob and various bloggers, hackers, code monkeys, and entrepreneurs, some of whom begin to show up mysteriously dead. Foul play, of course. With occasional excursions into the DeepWeb and out to Long Island, Thomas Pynchon, channeling his inner Jewish mother, brings us a historical romance of New York in the early days of the internet, not that distant in calendar time but galactically remote from where we've journeyed to since. Will perpetrators be revealed, forget about brought to justice? Will Maxine have to take the handgun out of her purse? Will she and Horst get back together? Will Jerry Seinfeld make an unscheduled guest appearance? Will accounts secular and karmic be brought into balance? Hey. Who wants to know? The Washington Post "Brilliantly written... a joy to read... Bleeding Edge is totally gonzo, totally wonderful. It really is good to have Thomas Pynchon around, doing what he does best." (Michael Dirda) Slate.com "If not here at the end of history, when? If not Pynchon, who? Reading Bleeding Edge, tearing up at the beauty of its sadness or the punches of its hilarity, you may realize it as the 9/11 novel you never knew you needed... a necessary novel and one that literary history has been waiting for." The New York Times Book Review Exemplary... dazzling and ludicrous... Our reward for surrendering expectations that a novel should gather in clarity, rather than disperse into molecules, isn't anomie but delight." (Jonathan Lethem) Wired magazine "The book's real accomplishment is to claim the last decade as Pynchon territory, a continuation of the same tensions — between freedom and captivity, momentum and entropy, meaning and chaos — through which he has framed the last half-century."

Winner of the 1974 National Book Award "A screaming comes across the sky. . ." A few months after the Germans' secret V-2 rocket bombs begin falling on London, British Intelligence discovers that a map of the city pinpointing the sexual conquests of one Lieutenant Tyrone Slothrop, U.S. Army, corresponds identically to a map showing the V-2 impact sites. The implications of this discovery will launch Slothrop on an amazing journey across war-torn Europe, fleeing an international cabal of military-industrial superpowers, in search of the mysterious Rocket 00000, through a wildly comic extravaganza that has been hailed in The New Republic as "the most profound and accomplished American novel since the end of World War II."

"Generous and big-hearted, Gauthier has stories to tell and worthwhile advice to share." —Wally Lamb, author of I Know This Much Is True "Gauthier has an uncanny ability to combine songwriting craft with a seeker's vulnerability and a sage's wisdom." —Amy Ray, Indigo Girls From the Grammy nominated folk singer and songwriter, an inspiring exploration of creativity and the redemptive power of song Mary Gauthier was twelve years old when she was given her Aunt Jenny's old guitar and taught herself to play with a Mel Bay basic guitar workbook. Music offered her a window to a world where others felt the way she did. Songs became lifelines to her, and she longed to write her own, one day. Then, for a decade, while struggling with addiction, Gauthier put her dream away and her call to songwriting faded. It wasn't until she got sober and went to an open mic with a friend did she realize that she not only still wanted to write songs, she needed to. Today, Gauthier is a decorated musical artist, with numerous awards and recognition for her songwriting, including a Grammy nomination. In Saved by a Song, Mary Gauthier pulls the curtain back on the industry of songwriting. Part memoir, part philosophy of art, part nuts and bolts of songwriting, her book celebrates the redemptive power of song to inspire and bring seemingly different kinds of people together.

"From the prize-winning author of The Beekeeper of Aleppo, a stunning novel about the disappearance of a Sri Lankan nanny and how the most vulnerable people find their voices. "It began with a crunch of leaves and earth. So early, so cold, the branches shone with ice. I'd returned to collect the songbirds. They are worth more than their weight in gold." Yiannis is a poacher, trapping the tiny protected songbirds that stop in Cyprus as they migrate each year from Africa to Europe and selling them on the black market. He dreams of finding a new way of life, and of marrying Nisha, who works on the island as a nanny and maid--having left her native Sri Lanka to try to earn enough to support her daughter, left behind and raised by relatives. But Nisha has vanished; one evening, she steps out on a mysterious errand and doesn't return. The police write off her disappearance as just another runaway domestic worker, so her employer, Petra, undertakes the investigation. Petra's unravelling of Nisha's last days in Cyprus lead her to Nisha's friends--other maids in the neighborhood--and to the darker side of a migrant's life, where impossible choices leave them vulnerable, captive, and worse. Based on the real-life disappearance of domestic workers in Cyprus, Christy Lefteri has crafted a poignant, deeply empathetic narrative of the human stories behind the headlines. With infinite tenderness and skill, Songbirds offers a triumphant story of the fight for truth and justice, and of women reclaiming their lost voices"--

The Crying of Lot 49 is widely recognized as a significant contemporary work that frames the desire for meaning and the quest for knowledge within the social and political contexts of the '50s and '60s in America. In the introduction to this collection of original essays on Thomas Pynchon's important novel, Patrick O'Donnell discusses the background and critical reception of the novel. Further essays by five experts on contemporary literature examine the novel's "semiotic regime" or the way in which it organizes signs; the comparison of postmodernist Pynchon and the influential South American writer, Jorge Luis Borges; metaphor in the novel; the novel's narrative strategies; and the novel within the cultural contexts of American Puritanism and the Beat movement. Together, these essays provide an examination of the novel within its literary, historical, and scientific contexts.

"Pynchon's California is the first book to examine Thomas Pynchon's use of California as a setting in his novels. Contributors explore such topics as the relationship of the "California novels" to Pynchon's more historical and encyclopedic works; the significance of California's beaches, deserts forests, freeways, and "hieroglyphic" suburban sprawl; the California-inspired noir tradition; and the surprising connections to be uncovered between drug use and realism, melodrama and real estate, private detection and the sacred."--P. 4 of cover.

"Later than usual one summer morning in 1984 . . ." On California's fog-hung North Coast, the enchanted redwood groves of Vineland County harbor a wild assortment of sixties survivors and refugees from the "Nixonian Reaction," still struggling with the consequences of their past lives. Aging hippie freak Zoyd Wheeler is revving up for his annual act of televised insanity when news reaches that his old nemesis, sinister federal agent Brock Vond, has come storming into Vineland at the head of a heavily armed Justice Department strike force. Zoyd instantly disappears underground, but not before dispatching his teenage daughter Prairie on a dark odyssey into her secret, unspeakable past. . . . Freely combining disparate elements from American popular culture—spy thrillers, ninja potboilers, TV soap operas, sci-fi fantasies—Vineland emerges as what Salman Rushdie has called in *The New York Times Book Review* "that rarest of birds: a major political novel about what America has been doing to itself, to its children, all these many years."

Part noir, part psychedelic romp, all Thomas Pynchon—Private eye Doc Sportello surfaces, occasionally, out of a marijuana haze to watch the end of an era In this lively yarn, Thomas Pynchon, working in an unaccustomed genre that is at once exciting and accessible, provides a classic illustration of the principle that if you can remember the sixties, you weren't there. It's been a while since Doc Sportello has seen his ex- girlfriend. Suddenly she shows up with a story about a plot to kidnap a billionaire land developer whom she just happens to be in love with. It's the tail end of the psychedelic sixties in L.A., and Doc knows that "love" is another of those words going around at the moment, like "trip" or "groovy," except that this one usually leads to trouble. Undeniably one of the most influential writers at work today, Pynchon has penned another unforgettable book.
