## **MAGICAL THINKING**

Houghton Mifflin  
Harcourt

This is an exploration  
and development of  
the meta-model, which  
lies at the heart of  
communicational  
excellence in neuro-

linguistic  
programming.

*The Magic Island*

Penguin

When a young boy finds an abandoned book, he discovers another world just as real as his own.

Using Your Brain--for a Change Science & Behavior Books

The Origins of NLP brings together the recollections and thoughts of some of the main protagonists from the very early days of NLP. In 1971 Richard Bandler and Frank Pucelik were students at Kresge College at the University of California Santa Cruz. They had a strong mutual interest in Gestalt Therapy, Frank because of his traumatic time in Vietnam and because he had been working with some disaffected

and drug-addicted kids, and Richard because he had been working with Science and Behavior Books on transcribing and editing Fritz Perls' seminal work, *The Gestalt Approach and Eyewitness to Therapy*. They started a local Gestalt group and ran 2-3 sessions a week collaborating and experimenting with the language of therapy. They started achieving some brilliant results but were having problems transferring their skills to others and so Richard invited one of their college professors, John Grinder, to observe what they were doing in order that he would, hopefully, be able to deconstruct what they were doing that was so effective. John was a professor of Linguistics

and was instantly impressed with the work that they were doing. He was able to add more structure and in due course the three of them formalised what is now known as the Meta Model. NLP, or Meta as it was known then, was born.

*Exploring the Structure and Meaning of Language* Courier Dover Publications New and improved edition for 2019. The Big Book Of NLP contains more than 350 patterns & strategies written in an easy, step-by-step format. The methods include a full array of the fundamentals that every practitioner needs, such as the Swish pattern and The Phobia Cure, as well as advanced and unique patterns, such as The

Nested Loops method and Learning Strategies. Many of these techniques were never published before and cannot be found elsewhere. Perhaps more important, and unlike most other NLP books and programs, the patterns are written with great care and testing to ensure that they are clear and can be followed immediately. If there was one really useful book on NLP... ...it would be full of NLP patterns! Everyone who learns Neuro Linguistic Programming knows the power of the patterns and strategies that employ the skills and knowledge of NLP. Whether you have just been introduced to the basics, or you have mastered advanced material and patterns, this work provides you

with more than 350 patterns in a concise reference format, with step-by-step instructions. We have selected each pattern for its value and relevance. If you know the pattern, you can refresh your memory; if you want to learn it, you can do so without wading through any "fluff" such as ridiculously long explanations of NLP terms, or "magical stories" of healing and success. I chose to make this book clean of theories and fiction stories, and packed it with the most practical guidelines and advice.

*Magic, Power,  
Language, Symbol*  
Vintage

All forms of magic are linked to language. As a magic practitioner and a linguist, Patrick Dunn illuminates this

fascinating relationship and offers breakthrough theories on how and why magic works. Drawing on linguistics and semiotics (the study of symbols), Dunn illuminates the magical use of language, both theoretically and practically. He poses new theories on the mechanics of magic by analyzing the structure of ritual, written signs and sigils, primal language, incantations across cultures, Qabalah and gematria (Hebrew numerology), and the Enochian vocabulary. This revolutionary paradigm can help magicians understand how sigils and talismans work, compose Enochian spells, speak in tongues for magic, create mantras, work with gematria, use

postmodern "defixios," and refine their practice in countless other ways. "Magic, Power, Language, Symbol" is a unique tour de force that reinterprets the very nature of magic—placing it within the modern sciences of symbolism (semiotics) and language (linguistics). Within this paradigm, Dunn explains something that most other books miss: a logical and scientific understanding of how and why real magic actually works."  
—Donald Michael Kraig, author of "Modern Magick" *Communication Magic* Simon and Schuster Explains how we use our communicating processes to generate behaviours which unconsciously stand

out on their own and speak for themselves. Covering everything from the sales process through to the close, the text considers the human communication processes present in a wide range of situations.  
*Neuro-linguistic Programming and the Structure of Hypnosis* Syntony Publishing Guidance for addiction counselors in understanding and applying ethical standards Filled with proven strategies to help you examine your current practice for ethical snags and refresh your ethical thinking, *Ethics for Addiction Professionals* leads you in examining, building, and rebuilding aspects of your ethical practice with the goal of helping you become the

strongest clinician possible—ethically speaking. Up-to-date and comprehensive, this practical guide examines real-life examples of ethical issues in clinical practice and illustrates potential pitfalls and the actions needed when faced with dilemmas. Helping addiction counselors learn how to deal with and apply ethical standards, *Ethics for Addiction Professionals* explores the gray area of common dilemmas and provides guidelines on how to determine the best course of action when the best course is unclear. Covers basic principles that affect current ethical concerns and dilemmas. Includes illustrative real-world case studies. Features

well-defined professional codes of ethics. Treats ethics as a set of guidelines designed to protect the client, the clinician, and the profession as a whole.

**The Big Book of Nlp, Expanded: 350+ Techniques, Patterns & Strategies of Neuro Linguistic Programming** WW Norton

Examines every category of occult phenomena from ESP to Eastern ritual and explores the basic laws of magic, relating them to the natural laws of the universe.

**The Structure of Magic** Crown House Publishing  
Additional Editor Is Paul R. Halmos. The University Series In Undergraduate Mathematics.

*Eight Princesses and a Magic Mirror* John Wiley & Sons

Richard Bandler, co-creator of NLP and the man who taught and trained Paul McKenna, joins forces with Alessio Roberti and Owen Fitzpatrick once again to give you the tools to change your life.

### **A BOOK ABOUT COMMUNICATION & CHANGE**

The Structure of Magic A Book about Language and Therapy Elucidates and argues for the author's concept of human history from the past to the present [Management Skills for Communication and Negotiation](#) John Wiley & Sons  
Richard Bandler is known worldwide as the cofounder of

neurolinguistic programming (NLP). Here, in what will be considered a classic, is Bandler at his best—the most accessible and engaging work yet, detailing his proven methods that have freed tens of thousands of people worldwide of their destructive habits, phobias, and fears. When conventional therapy and drugs fail, Richard Bandler delivers, often with miraculous results. Richard Bandler cocreated the field of NLP with John Grinder in the early 1970s. Since then, Bandler's work revolutionized the field of personal change; his models and methods have been widely adopted and used successfully in colleges and

universities, therapists' offices, professional sports teams, and businesses across the globe. While many people have written books on NLP, much of what has been written is based on Bandler's ideas. *Get The Life You Want* shares 'the how' from Bandler himself, with remarkable insights into some of his greatest and most advanced work to date, including compelling true examples from client sessions. With more than thirty exercises that promise rapid relief from any problem or habit, plus a glossary of terms and a detailed index, this is a culmination of a lifetime of work written in a simple, engaging style that both clinicians and laypeople will find

effective. Richard Bandler's books have sold more than half a million copies worldwide. Tens of thousands of people, many of them therapists, have studied Bandler's blend of hypnosis, linguistics, and positive thinking at colleges and NLP training centers in the United States, Europe, and Australia. He is the author of *Using Your Brain—for a Change*, *Time for Change*, *Magic in Action*, and *The Structure of Magic*. He coauthored *Frogs into Princes*, *Persuasion Engineering*, *The Structure of Magic Volume II*, and *Patterns of the Hypnotic Techniques of Milton H. Erickson Volume I*. *How You Can Gain Personal Power in Any Situation* Harper Collins

Thinking on Purpose is an indispensable guide to anyone who wants to make changes in their life. Most people don't really 'think'. They 'remember'. That's why they are often destined to repeat the same negative patterns over and over again.

### **A BOOK ABOUT FURTHER EDUCATION FOR BEING HUMAN**

Inner Patch Publishing  
What makes a princess excellent? Eager to learn the answer, an enchantress casts her magic mirror into our universe. Reflected in it are princesses from around the world and across centuries who refuse to be pretty, polite, and obedient. Princess Leila of the desert protects her people from the king

with the black-and-gold banner; Princess Tica takes a crocodile for a pet; Princess Ellen explores the high seas; Princess Abayome puts empathy and kindness above royal beauty; and in an apartment building, a girl named Princess saves her community's beloved garden from the hands of urban developers. These girls are fierce, brave, and determined to do the rescuing themselves.

Connecting their stories is the magic mirror, which reveals itself when each girl needs it most, illuminating how a princess's power comes not from her title or looks, but from her own inner strength. These beautifully imagined stories, complemented by vibrant and inviting

artwork, are by turns charming and bold, familiar and surprising.

## **THE STRUCTURE OF WORLD HISTORY**

Im Press, Incorporated  
This 1929 volume offers firsthand accounts of Haitian voodoo and witchcraft rituals. Author William Seabrook introduced the concept of the walking dead to the West with this illustrated travelogue.

## **TRANCE-FORMATIONS**

University of Chicago Press  
Bandler covers a lot of ground in this book - in his unique style - and provides real insight into areas such as sub-modalities and multiple perspectives in a fairly short period (157 pages). The content is edited notes from a

series of Bandler workshops (in a similar vein to Frogs into Princes and Trance-Formations). The book begins with an overview of NLP - making particular reference to the "new" submodality patterns (the book was written in 1985) and presenting these as a faster and more powerful way of creating personal change. Subsequent chapters provide a humorous exploration of many of the traditional approaches to personal change and outline many useful guiding principles (structure versus content etc) for the application of NLP to personal change. The author makes repeated reference to a number of epistemological issues underlying

traditional psychological approaches that tend to focus on "what's wrong, when you broke, ... what broke you, ... and why you broke." He goes on to state that "psychologists have never been interested in how you broke, or how you continue to maintain the state of being broken." NLP on the other hand, Bandler asserts, assumes people work perfectly and that people are just doing something different from what we (or they) want to have happen. This provides a clear indication of the approach adopted in the remainder of the book, and suggests that the focus of NLP on subjective experience (as the study of subjective

experience) is entirely valid and necessary. Bandler provides a convincing argument for tailoring all our change work to the individual - purely because each individual is unique. The book continues with a useful and insightful exploration of a number of techniques (including the fast phobia cure, contrastive analysis in belief change, integrated anchors and Swish,) as well as discussion of more general (and generative) strategies for learning and motivation.

**Get the Life You Want** Science & Behavior Books

This book investigates who Lady Godiva was, how the story of her naked horseback ride through Coventry

arose, and how the whole Godiva legend has evolved from the thirteenth century through to the present day. Traces the erotic myth of Lady Godiva back to its medieval origins. Based on scholarly research but written to be accessible to general readers. Combines history, literature, art and folklore. Focuses on the twin themes of voyeurism and medievalism. Contributes to our understanding of cultural history, medievalism and the history of sexuality.

### **The Structure of Human History**

Health Communications, Inc. Transcriptions of video tapes by the originator and co-founder of Neuro-linguistic programming.

*The Magic of Rapport*  
Duke University Press  
"Fantastic . . . an honest, beautifully detailed book and an entertaining read."  
—DIANA GABALDON, THE WASHINGTON POST "A fantastical treat." —PEOPLE  
"Simultaneously sweeping and intricate . . . Tompkins's amazing debut novel conjures an epic battle for the soul of Ireland. Filled with papal machination and royal intrigue, magic and mayhem, faeries, Vikings, legates, kings and queens, angels and goddesses, this is one wild and breathless ride."  
—KAREN JOY FOWLER  
"Plundering the treasure chest of human myths, from mysterious biblical giants to ferocious Celtic faeries,

Tompkins has created a fantasy adventure with the shifting perspectives of dreamscape. A novel rich and strange.”  
—GERALDINE BROOKS  
What became of magic in the world? Who needed to do away with it, and for what reasons? Drawing on myth, legend, fairy tales, and Biblical mysteries, *The Last Days of Magic* brilliantly imagines answers to these questions, sweeping us back to a world where humans and magical beings co-exist as they had for centuries. Aisling, a goddess in human form, was born to rule both domains and—with her twin, Anya—unite the Celts with the powerful faeries of the Middle Kingdom. But within medieval Ireland

interests are divided, and far from its shores greater forces are mustering. Both England and Rome have a stake in driving magic from the Emerald Isle. Jordan, the Vatican commander tasked with vanquishing the remnants of otherworldly creatures from a disenchanted Europe, has built a career on such plots. But increasingly he finds himself torn between duty and his desire to understand the magic that has been forbidden. As kings prepare, exorcists gather, and divisions widen between the warring clans of Ireland, Aisling and Jordan must come to terms with powers given and withheld, while a world that can still foster magic hangs

in the balance. Loyalties are tested, betrayals sown, and the coming war will have repercussions that ripple centuries later, in today's world—and in particular for a young graduate student named Sara Hill. The *Last Days of Magic* introduces us to unforgettable characters who grapple with quests for power, human frailty, and the longing for knowledge that has been made taboo. Mark Tompkins has crafted a remarkable tale—a feat of world-building that poses astonishing and resonant answers to epic questions.

*An Introductory Treatise on the Basic Principles of Yellow Light* Llewellyn Worldwide

Imagine for a moment

that someone takes you into a huge room, packed with the most complex technology you'd ever seen and offers to show you how to operate the system so that you can instantly bounce your attitude from one of negativity and doubt to an attitude of optimism, cheerfulness and hope. How radically would your life change if you could switch, at will, from living life down to living life up? What would you be capable of achieving if you had a system guaranteed to upgrade your health and well-being, outlook and expectations? Is this something you'd be interested in? If so, read on ... *Being Happy* is written for the average person who wants to change his or her life and achieve his

or her full potential. It is full of exercises and life-changing tactics utilizing the principles of NLP with amazing results. Written by Richard Bandler, co-creator and developer of Neuro-Linguistic Programming, and Garner Thomson, NLP Master Practitioner and Trainer, Richard Bandler is arguably the world's most influential contributor to the field of self-development and applied psychology. His books have sold more than half a million copies, and tens of thousands of people have studied his unique blend of hypnosis, linguistics, and precise thinking throughout the world. A widely acclaimed keynote speaker and workshop leader, he is the author of many books, including Get

the Life You Want, Richard Bandler's Guide to Trance-formation, Using Your Brain-for a Change, Time for a Change and Magic in Action. He co-authored Conversations, Frogs into Princes, Persuasion Engineering, The Structure of Magic I, The Structure of Magic II, Patterns of the Hypnotic Techniques of Milton H. Erickson Volumes I and II, and Neuro-Linguistic Programming Volume I. Dr Bandler's background as a musician and his interest in the relationship between sound and neural functioning has led him to develop Neuro-Sonics™, and a range of programs for the BrainFit light-sound machine, both of which

utilize music and sound to create specific internal experiences and behavioral outcomes. He is also the founder of the mental technologies of Design Human Engineering (DHE) and Neuro-Hypnotic Repatterning (NHR). (Less)
