**40 Years of Photography** Little, Brown Books for Young Readers

A stunning collection of photographs of the LGBTQ community in Thailand, from one of the world's most renowned photographers Steve McCurry is the artist behind some of the most iconic images in contemporary photography. His 1984 portrait of Sharbat Gula ("the Afghan girl") on the cover of National Geographic remains widely recognized to this day. Now McCurry turns his attention to Thailand as part of a series of photobooks on LGBTQ communities around the world. Thailand has long had the reputation as one of the most gay-friendly destinations in Asia, particularly Bangkok with its nightlife and its relative openness and safety. While this may be true for tourists and expats, the idea of Thailand as a haven for LGBTQ people and for same-sex couples, heavily promoted by the tourist industry, does not necessarily extend to Thais themselves. While Thailand is home to the largest LGBTQ communities in Asia, the reality for them is less accepting. Discrimination and exclusion targeting LGBTQ people continues despite a nominally progressive stance on inclusion, and same-sex marriage remains illegal. Against this backdrop, McCurry's lushly colored photographs take us into the vibrant LGBTQ community in Bangkok, and this beautifully packaged, affordably priced book gives us a series of close to one hundred moving and intimate portraits of people who are no longer welcome in the community in which they grew up, but who have forged a new life and a new meaning of family in the queer community. *Belonging* was designed by Emerson, Wajdowicz Studios (EWS).

**Steve McCurry Untold: The Stories Behind the Photographs** Phaidon Press

Beautiful and evocative colour photographs of the temples of Angkor, Cambodia. The globally acclaimed Magnum photographer Steve McCurry has beautifully and evocatively photographed the temples of Angkor in Cambodia, which rank amongst the world's most impressive monuments. Over one hundred of his images of

the site are collected in this stunning book, which documents a magical world of carved gods, weathered masonry, tangled vegetation and orange-robed monks. Angkor was the capital of the Khmer rulers from the end of the ninth century to the mid-fifteenth. Each built a state temple at the capital surrounded by walls, moats and embankments which were laid out in accordance to cosmological precepts. Designated a World Heritage site by UNESCO, the temples attract tourists, archaeologists and art historians, as well as remaining a pilgrimage destination for Buddhist monks. McCurry first visited Angkor on an assignment for National Geographic magazine, for whom he has taken famous photographs all over the world. He has made many return visits, capturing overall a sublime portrait of the buildings, sculpture and people of Angkor. The winner of numerous honors, including first prize in the World Press awards and the Robert Capa Gold Medal, McCurry has previously published *Portraits and South Southeast* (both with Phaidon). The photographs are accompanied by an informative introduction on the history and meaning of Angkor by John Guy, a leading authority on the cultural history of Southeast Asia. Guy is Curator of Indian and Southeast Asian sculpture at the Victoria and Albert Museum in London, and Consultant to UNESCO on historical monuments in Southeast Asia.

Arriving in Paris in 1924, Brassai rapidly became a shrewd observer of nocturnal Parisian life. He sensed that photography was the tool that would allow him to document his vision of a dying society. Fascinated by the night, which he found disconcerting, enigmatic, and suggestive, Brassai photographed its every aspect, from police to prostitutes to the homeless to socialites, all in a dreamlike and mysterious manner. In sixty-four images, Brassai succeeded in remarkably capturing this unique ambience. This book, meticulously assembled by Brassai himself, signifies the birth of the artist. Brassai, originally from Hungary, traveled to Paris in 1924, where he began to associate with the avant-garde artist community, in particular with Picasso and the Parisian surrealist circles. He quickly established himself as one of the most original photographers of his generation.

**Civilization** National Geographic Books

Presents a collection of portraits taken in various locations around the world.

## WILLIAM ALBERT ALLARD, FIVE DECADES

Phaidon Press

"Steve McCurry (b. 1950) is best known for his evocative colour photography of Southeast Asia. He has captured stories of human experience which, in the finest documentary tradition, cross boundaries of language and culture. McCurry's career was launched in 1979 when he crossed the border from Pakistan into rebel-controlled Afghanistan just before the Russian invasion. A contributor to National Geographic for many years and a member of Magnum Photos since 1986, McCurry's images have become modern icons."--BOOK JACKET.
