An Entrepreneurial Emphasis Cengage Learning

Why do people evade paying taxes? This is the central question addressed in this volume by Robert McGee and a multidisciplinary group of contributors from around the world. Applying insights from economics, public finance, political science, law, philosophy, theology and sociology, the authors consider the complex motivations for not paying taxes and the conditions under which this behavior might be rationalized. Applying theoretical approaches as well as empirical research, The Ethics of Tax Evasion considers three general arguments for tax evasion: (1) in cases where the government is corrupt or engaged in human rights abuses; (2) where citizens claim inability to pay, unfairness in the tax system, paying for things

that do not benefit the taxpayer, excessively high tax rates, or where taxes are used to support an unpopular war; and (3) through philosophical, moral, or religious opposition. The authors further explore these issues by asking whether attitudes toward tax evasion differ by country or other demographic variables such as gender, age, ethnicity, income level, marital status, education or religion. The result is a multi-faceted analysis of tax evasion in cultural and institutional context, and, more generally, a study in ethical dilemmas and rational decision making.

Family Entrepreneurship Houghton Mifflin Harcourt

In the aftermath of the Civil War, the West is invaded by hordes of bold, dangerous men. And with the railroad coming to Black Creek, Kansas, the town becomes a magnet to every whore, tinhorn, outlaw, and killer in the territory. A gang of human vultures, led by the shadowy, murderous Harvey Kidd, has started a bloody guerrilla war with the Union Pacific Railroad, robbing payrolls, killing workers, and burning bridges. Black Creek is next on Kidd's list. Into this explosive mix rides human powder keg Dane Bowman, a mysterious stranger with a big iron on his hip. Lightning-fast and leather-tough, Bowman whipsaws outlaws and lawmen alike, taking on all comers, turning Black Creek into a corpse-strewn battleground. It all leads up to a showdown on Boot Hill that unleashes a bloody storm of lead destined to become a legend of the West....

This book provides recent ideas, insights, facts, evidence, frameworks, and perspectives on how and why entrepreneurial families are successful over

generations. The book focuses on how families successfully implement entrepreneurship across generations. That success, it argues, requires entrepreneurship at the level of the family, not only in the businesses the family owns and manages. Written by noted academics and consultants who are authorities on family entrepreneurship, the chapters provide a comprehensive exploration of the characteristics of successful entrepreneurial families, their motivations, how they behave over time, and, suggestions for how business families can encourage and sustain entrepreneurship. This comprehensive look at family entrepreneurship will serve as a fundamental reference text for family business consultants, owners, and scholars.

PROPHET OF PEACE AMID THE CLASH OF EMPIRES

Routledge

In an era when people live longer and want (or need) to work past the traditional retirement age, the Vita Needle Company of Needham, Massachusetts, provides inspiration and important lessons about the value of older workers. Vita Needle is a family-owned factory that was founded in 1932 and makes needles, stainless steel tubing and pipes, and custom fabricated parts. As part of its unusual business model, the company seeks out older workers; the median age of the employees is seventy-four. In *Retirement on the Line*, Caitrin Lynch explores what this unusual company's commitment to an elderly workforce means for the employer, the workers, the community, and society more generally. Benefiting from nearly five years of fieldwork at Vita Needle, Lynch offers an intimate portrait of the people who work there, a nuanced explanation of the company's hiring practices, and a cogent analysis of how the workers' experiences can inform our understanding of aging and work in the twenty-first century. As an in-depth study of a singular workplace, rooted in the unique insights of an anthropologist who specializes in the world of work, this book provides a sustained focus on values and meanings-with profound consequences for the broader assumptions our society has about aging and employment.

In the midst of the dramatic seventh-century war between two empires, Muhammad was a spiritual seeker in search of community and sanctuary. Many observers stereotype Islam and its scripture as inherently extreme or violent—a narrative that has overshadowed the truth of its roots. In this masterfully told account, preeminent Middle East expert Juan Cole takes us back to Islam's—and the Prophet Muhammad's—origin story. Cole shows how Muhammad came of age in an era of unparalleled violence. The eastern Roman Empire and the Sasanian Empire of Iran fought savagely throughout the Near East and Asia Minor. Muhammad's profound distress at the carnage of his times led him to envision an alternative movement, one firmly grounded in peace. The religion Muhammad founded, Islam, spread widely during his lifetime, relying on soft power instead of military might, and sought armistices even when militarily attacked. Cole sheds light on this forgotten history, reminding us that in the Qur'an, the legacy of that spiritual message endures. A vibrant history that brings to life the fascinating and complex world of the Prophet, Muhammad is the story of how peace is the rule and not the exception for one of the world's most practiced religions.

Most small businesses cite lack of capital is a major constraint on growth. "Raising Capital" focuses on non-bank sources of capital since banks only lend to companies that fit a very narrow profile. The topics covered include: (i) capital sources entrepreneurs can tap when they are too small or unusual for banks, (ii) angel investors and venture capital, (iii) where to look for angels, venture capitalists and other capital sources, (iv) how to pitch your company and close the deal, (v) deal terms and issues that arise when negotiating a deal, (vi) going public through an IPO or little known small public offerings, (viii) asset based lenders, and (ix) other financing vehicles including: bond, commercial paper, PIPEs and securitization. The scope of the book ranges from capital for entrepreneurs who have little more than an idea, to capital for top rated companies.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

A STORY FROM THE NEW TESTAMENT WORLD

Routledge

Finalist for the Pulitzer Prize and the National Book Critics Circle Award *A New York Times Notable Book* *Winner of the Texas Book Award and the Oklahoma Book Award* This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West "is nothing short of a revelation...will leave dust and blood on your jeans" (The New York Times Book Review). *Empire of the Summer Moon* spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American

West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. *Empire of the Summer Moon* announces him as a major new writer of American history.

Management Springer Science & Business Media

This book studies human behavior and is concerned with the management of people in the workplace. It considers the surroundings in which people

work, including factors both outside of and within organizations. The diverse mixture of managers, co-workers, and other employees; the effects of globalization; the planned and unplanned cultural components within organizations; the groupings of individuals into teams; and the physical features of the workplace (temperature, lighting, and so forth) make up surroundings. Human nature; employee needs, expectations and perceptions; along with other traits and patterns are also considered.
