Llewellyn is pleased to present a new Scott Cunningham book—a long-lost *Book of Shadows*. Discovered in a battered manila envelope, this previously unpublished manuscript was penned by

Scott in the early 1980s. This rare book includes original spells, rituals, invocations, and an herbal grimoire. Featured in the design are Scott's actual hand-drawn signs, symbols, and runes. More than twenty years after his passing, Scott Cunningham is still an iconic and highly regarded figure in the magical community. THEORY AND PRACTICE

Weiser Books

Reconnect with the natural world using the magick of the five elements of earth, air, water, fire, and spirit—written by one of the grand dames of witchcraft and magick. For more than a thousand years, alchemists and magicians have worked with the four elements of the universe. While most spiritual seekers have a basic knowledge of these four elements, and the more nebulous fifth element, spirit, few realize that the energies of the elements are a key to their magical practice. *Elemental Magick* offers readers insight into the inner teachings of the elements. Author D. J. Conway explains in depth the forces behind the elements

and how they provide a framework for literally everything in the universe. She also explains the all-important and powerful element of spirit that belongs to each of the other elements and how these intimate connections allow the magickal energy to flow in a continuous circle of existence. By learning how to work with and balance the elements and their spirits, readers will better understand the larger process of balancing one's life with the world around them.
