Shaman of Oberstdorf tells the fascinating story of a sixteenth-century mountain village caught in a panic of its own making. Four hundred years ago the Bavarian alpine town of Oberstdorf, surrounded by the towering peaks of the Vorarlberg, was awash in legends and rumors of prophets and healers, of spirits and specters, of witches and soothsayers. The book focuses on the

life of a horse wrangler named Chonrad Stoeckhlin [1549-1587], whose extraordinary visions of the afterlife and enthusiastic practice of the occult eventually led to his death--and to the death of a number of village women--for crimes of witchcraft. In addition to recounting Stoeckhlin's tale, this book examines the larger world of alpine myths concerning ghosts and other spirits of the night, documenting how these myths have been abused by German political movements over the years. As an introduction to modern German witchcraft research, as a study of the local impact of the Counter Reformation, and as a historical investigation into popular culture,

Behringer's book has the advantage of telling a compelling individual story amidst larger discussions of peasant raptures, magical healing, and unfamiliar alpine notions such as the "furious army," the "wild hunt," popular bonfire festivals, and eerie echoes of pagan Wotan. Wolfgang Behringer is one of the premier historians of German witchcraft, not only because of his mastery of the subject at the regional level, but because he also writes movingly, forcefully, and with an eye for the telling anecdote. Reminiscent of such classics as *The Cheese and the Worms* and *The Return of Martin Guerre*, *Shaman of Oberstdorf* is an unforgettable look at early modern German

folklore and culture.

 Trafficking in persons is a form of modern-day slavery, a human rights violation that constitutes a crime against the individual and the State. It must be recognized and punished by legislative means. Parliamentarians have an essential role to play in the fight against human trafficking. The Handbook for Parliamentarians suggests some practical ways in which they can develop and promote the comprehensive frameworks needed to do so.

From the ideological crucible of the

Reformation emerged an embittered contest for the human soul. In the care of souls, the

clergy zealously dispensed spiritual physic; for countless early modern Europeans, the first echelon of mental health care. During its heyday, spiritual physic touched the lives of thousands, from penitents and pilgrims to demoniacs and mad people. Ironically, the phenomenon remains largely unexplored. Why? Through case histories from among the records of over 1,000 troubled and desperate individuals, this regional study of Bavaria investigates spiritual physic as a popular ritual practice during a tumultuous era of religious strife, material crises, moral repression and witch hunting. By the mid-seventeenth century, secular forces ushered in a psychological

revolution across Europe. However, spiritual physic ensconced itself by proxy upon emergent bourgeois psychiatry. Today, its remnants raise haunting questions about science and the pursuit of objective knowledge in the ephemeral realm of human consciousness.

This book - a most important and original contribution to the literature of interpretative criticism - contains the Clark Lectures delivered at Cambridge University in 1946. Its theme is poetic imagery, not only in its stricter sense of simile, metaphor and image, but in the wider application of the term,

by which every good poem is itself a total image made up of a multiplicity of component images. The book is therefore more than an academic study of one aspect of poetic material and technique: it is an investigation into the nature of poetry itself, taking as its clue the belief, as old as Aristotle, that the power of image-making is the one sure sign of poetic genius. Beneath all the manifestations of the poetic image, Mr. Day Lewis traces one principle at work - the 'abiding impulse in every human being to seek order and harmony behind the manifold and the changing'.

The Poetic Image

If a picture is worth a thousand words, then it's a good bet that at least half of those words relate to the picture's copyright status. Art historians, artists, and anyone who wants to use the images of others will find themselves awash in byzantine legal terms, constantly evolving copyright law, varying interpretations by museums and estates, and despair over the complexity of the whole situation. Here, on a white—not a high—horse, Susan Bielstein offers her decades of experience as an editor working with illustrated books. In doing so, she unsnarls the threads of permissions that have ensnared scholars, critics, and artists for years. Organized as a series of “takes” that

range from short sidebars to extended discussions, *Permissions, A Survival Guide* explores intellectual property law as it pertains to visual imagery. How can you determine whether an artwork is copyrighted? How do you procure a high-quality reproduction of an image? What does “fair use” really mean? Is it ever legitimate to use the work of an artist without permission? Bielstein discusses the many uncertainties that plague writers who work with images in this highly visual age, and she does so based on her years navigating precisely these issues. As an editor who has hired a photographer to shoot an incredibly obscure work in the Italian

mountains (a plan that backfired hilariously), who has tried to reason with artists' estates in languages she doesn't speak, and who has spent her time in the archival trenches, she offers a snappy and humane guide to this difficult terrain. Filled with anecdotes, asides, and real courage, *Permissions, A Survival Guide* is a unique handbook that anyone working in the visual arts will find invaluable, if not indispensable.

Communal Reformation is the most original and provocative book to appear in its field in the past quarter-century. It met with an enthusiastic response, particularly in England and the United States, when first published in Germany in 1985 and is now available in translation. Peter Blickle's groundbreaking study, which is intended for scholars and students interested in the history of pre-modern Europe, the development of Germany, the history of Christianity, and historical sociology, reconstructs the connection between

the crisis of rural society at the end of the Middle Ages, the great Peasants' War of 1525, and the reformation as a social movement. Blickle focuses on southern Germany, Switzerland, and Austria in the later Middle Ages and Early Modern eras (roughly 1400 to 1600), though his work has important implications for the social and religious history of Europe as a whole.

While Universal's *Dracula* and *Frankenstein* (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with *The Last Warning*, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror,

science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's The Shadow short film series is covered in an appendix. Many rare illustrations and movie posters are also included.

INTRODUCTION TO THE SPIRITUAL LIFE

United Nations Publications Surveying for Construction 5e is an essential textbook for students of engineering new to surveying, and will also

appeal to students of building and environmental studies and archaeology. Offering a strong grounding in land and construction surveying, the authors clearly and comprehensively guide the reader through the principles, methods and equipment used in modern-day surveying. Taking into account recent advances in the field, the material has been fully updated and revised throughout including new and up-to-date coverage of levelling, total stations, detail surveys, and EDM. A new chapter on GPS technology has been added. In keeping with the practical nature of the book, there are chapters on setting out construction works and surveying existing buildings, which guide

the reader step-by-step through the fundamental procedures. The clear and methodical nature of the explanations, supported by a wide range of exercises and examples, make *Surveying for Construction 5e* an invaluable and modern introduction to surveying. Key features include:

- Fully updated coverage and new material throughout, including a new chapter on GPS
- New Learning Objectives and Chapter Summaries which guide the student through the learning process and highlight the key principles and methods for each chapter
- Numerous diagrams and figures which give students a clear and detailed understanding of

equipment and procedures

- Extensive boxed examples and exercises that guide students through real-world surveying methods and calculations
- Website material: online material for creating your own surveying project allows students to practice the methods and techniques they have learnt

A French convert to Catholicism in 1939, Louis Bouyer is a renowned theologian who was an influential presence at Vatican II. His classic work, *Introduction to the Spiritual Life*—first published in English in 1961 and now brought back into print—provides readers with an inspiring and comprehensive vision of Christian spirituality that is unmatched in its warmth, lucidity, and

accessibility.

Introduction to the Spiritual Life is, by author Louis Bouyer's own description, a manual for practical use. Much more than just a work of "spirituality" or "apologetics," it is a hybrid of both, produced with an expertise and confidence borne of a lifetime of prayer and study. It aims to cultivate interior growth through a thoughtful, reasoned meditation on the spiritual meaning of the Gospel as proclaimed by the Catholic Church. Catholics who read *Introduction to the Spiritual Life* will better appreciate how a life of prayer can be shaped and enriched by sound Christian doctrine.
