Conceptual Physics: The High School Physics program 2. By Paul G. Hewitt PRENTICE HALL(2009) Conceptual Physics (PDF) The High School Physics ... Conceptual Physics is an introductory science course for students whose previous experiences in science and mathematics have not prepared them for the regular Freshman Physics course. Science / Conceptual Physics - School District of Clayton Conceptual Physics engages students with analogies and imagery from real-world situations to build a strong conceptual understanding of physical principles ranging from classical mechanics to modern physics. With this

strong conceptual foundation, students are better equipped to make connections between the concepts of physics and their everyday world. Conceptual Physics | Conceptual Academy Conceptual Physics should be a full year class for junior or senior level high school students. For this class to be truly conceptual the laboratory experience is integral. Since high school classes are generally 45 minutes to an hour, one experiment may take two full class meetings. Conceptual Physics, High School The spread of the conceptual approach to teaching physics broadened the range of students taking physics in high school. Enrollment in conceptual physics courses in high school grew from 25,000 students in 1987 to over 400,000 in 2009. In 2009, 37% of students took high school physics, and 31% of them were in Physics First, conceptual physics courses, or regular physics courses using a conceptual textbook.
