NYU Press

A seismic population shift is taking place as many formerly racially homogeneous cities in the West attract a diverse influx of newcomers seeking economic and social advancement. In *The Changing Face of World Cities*, a distinguished group of immigration experts presents the first systematic, data-based comparison of the lives of young adult children of immigrants growing up in seventeen big cities of Western Europe and the United States. Drawing on a comprehensive set of surveys, this important book brings together new evidence about the international immigrant experience and provides far-reaching lessons for devising more effective public policies. *The Changing Face of World*

Cities pairs European and American researchers to explore how youths of immigrant origin negotiate educational systems, labor markets, gender, neighborhoods, citizenship, and identity on both sides of the Atlantic. Maurice Crul and his co-authors compare the educational trajectories of second-generation Mexicans in Los Angeles with second-generation Turks in Western European cities. In the United States, uneven school quality in disadvantaged immigrant neighborhoods and the high cost of college are the main barriers to educational advancement, while in some European countries, rigid early selection sorts many students off the college track and into dead-end jobs. Liza Reisel, Laurence Lessard-Phillips, and Phil Kasinitz find that while more young members of the second generation are employed in the United States than in Europe, they are also likely to hold low-paying jobs that barely life them out of poverty. In Europe, where immigrant youth suffer from higher unemployment, the embattled European welfare system still yields them a higher standard of living than many of their American counterparts. Turning to issues of identity and belonging, Jens Schneider, Leo Chávez, Louis DeSipio, and Mary Waters find that it is far easier for the children of Dominican or Mexican immigrants to identify as American, in part because the United States takes hyphenated identities for granted. In Europe, religious bias against Islam makes it hard for young people of Turkish origin to identify strongly as German, French, or Swedish. Editors Maurice Crul and John Mollenkopf conclude that despite the barriers these youngsters encounter on both continents, they are making real progress relative to their parents and are beginning to close the gap with the native-born. *The Changing Face of World Cities* goes well beyond existing immigration literature focused on the United States experience to show that national policies on each side of the Atlantic can be enriched by lessons from the other. *The Changing Face of World Cities* will be vital reading for anyone interested in the young people who will shape the future of our increasingly interconnected global economy.

### **MEXICAN IMMIGRANTS AND SOUTHERN CALIFORNIA**

Oxford University Press

Combining lucid, compelling essays by Alvaro Huerta, and moving photography by Antonio Turok, *Reframing the Latino Immigration Debate* assesses a complicated and highly charged historical moment in the Americas. As the walls come down in Europe, new walls threaten to go up along the U.S./Mexican border, changing the dynamics of cultural and social fusion that inform the borderlands. What is at stake is a way of life for citizens and visitors alike.

**Chicanas/Chicanos at the Crossroads** NYU Press

"This book--a story of social reproduction and change--illustrates how the larger ideological struggles over who belongs in this country, who is valuable, and who is an American are worked out by young people through their everyday acts of striving in school and caring for friends and family. It uses the experiences of everyday high schoolers, some undocumented and some from families with mixed legal standing, to understand the roles that education and a broad definition of achievement play in shaping how young people, who are today the focus of xenophobic ire, come to understand their national identity and sense of belonging to the United States"--

**Locating Migration** University of Texas Press

Directly opposing ideas constructed and perpetuated by pundits and the media at large, *The Latino*

*Threat* challenges the suggestion that Latino immigrants are unwilling to integrate and reveals that citizenship is not just about legal definitions, but about participation in society.

### **SHADOWED LIVES**

NYU Press

Addresses the historical origins of Spanish-speaking people in the United States, the rise of stereotypes, the growth of efforts at self-definition, and related matters.

*Reform Without Justice* University of Chicago Press

News media and pundits too frequently perpetuate the notion that Latinos, particularly Mexicans, are an invading force bent on reconquering land once their own and destroying the American way of life. In this book, Leo R. Chavez contests this assumption's basic tenets, offering facts to counter the many fictions about the "Latino threat." With new discussion about anchor babies, the DREAM Act, and recent anti-immigrant legislation in Arizona and other states, this expanded second edition critically investigates the stories about recent immigrants to show how prejudices are used to malign an entire population—and to define what it means to be American.

*Unauthorized* Univ of California Press

"...awash under a brown tide...the relentless flow of immigrants..like waves on a beach, these human flows are remaking the face of America...." Since 1993, metaphorical language such as this has permeated mainstream media reporting on the United States' growing Latino population. In this groundbreaking book, Otto Santa Ana argues that far from being mere figures of speech, such metaphors produce and sustain negative public perceptions of the Latino community and its place in American society, precluding the view that Latinos are vested with the same rights and privileges as other citizens. Applying the insights of cognitive metaphor theory to an extensive natural language data set drawn from hundreds of articles in the Los Angeles Times and other media, Santa Ana reveals how metaphorical language portrays Latinos as invaders, outsiders, burdens, parasites, diseases, animals, and weeds. He convincingly demonstrates that three anti-Latino referenda passed in California because of such imagery, particularly the infamous anti-immigrant measure, Proposition 187. Santa Ana illustrates how Proposition 209 organizers broadcast compelling new metaphors about racism to persuade an electorate that had previously supported affirmative action to ban it. He also shows how Proposition 227 supporters used antiquated metaphors for learning, school, and language to blame Latino children's speech—rather than gross structural inequity—for their schools' failure to educate them. Santa Ana concludes by calling for the creation of insurgent metaphors to contest oppressive U.S. public discourse about minority communities.

*Latino Heartland* John Wiley & Sons

A powerful and challenging look at what "success" and belonging mean in America through the eyes of Latino high schoolers. This book challenges dominant representations of the so-called American Dream, those "patriotic" narratives that focus on personal achievement as the way to become an American. This narrative misaligns with the lived experience of many first- and second-generation Latino immigrant youth who thrive because of the nurture of their loved ones. A story of social reproduction and change, *The Succeeders* illustrates how ideological struggles over who belongs in this country, who is valuable, and who is an American are worked out by young people through their

ordinary acts of striving in school and caring for friends and family. In this eye-opening book, Andrea Flores examines how ideological struggles over who belongs in this country, who is valued, and who is considered to be an American are worked out by young people through ordinary acts of striving in school and caring for friends and family. Through examining the experiences of everyday Latino high school students—some undocumented, some citizens, and some from families with mixed immigration status—Flores traces how these youth, in the college-access program Succeeders, leverage educational success toward national belonging for themselves and their families, friends, and communities. These young people come to redefine what it means to belong in the United States by both conforming to and contesting the myth of the American Dream rooted in individual betterment. Their efforts demonstrate that meaningful national belonging can be based in our actions of caring for others. Ultimately, *The Succeeders* emphasizes the vital role that immigrants play in strengthening the social fabric of society, helping communities everywhere to thrive.

### MANUFACTURING CELEBRITY

University of Arizona Press

Fully revised and updated, the second edition of this popular text provides students with a comprehensive introduction to Latino participation in US politics. Focusing on six Latino groups - Mexicans, Puerto Ricans, Cubans, Dominicans, Salvadorans, and Guatemalans - the book explores the migration history of each group and shows how that experience has been affected by US foreign policy and economic interests in each country of origin. The political status of Latinos on arrival in the United States, including their civil rights, employment opportunities, and political incorporation, is then examined. Finally, the analysis follows each group's history of collective mobilization and political activity, drawing out the varied ways they have engaged in the US political system. Using the tension between individual agency and structural constraints as its central organizing theme, the discussion situates Latino migrants, and their children, within larger macro economic and geopolitical structures that influence their decisions to migrate and their ability to adapt socially, economically, and politically to their new country. It also demonstrates how Latinos continually have shown that through political action they can significantly improve their channels of opportunity. Thus, the book encourages students to think critically about what it means to be a racialized minority group within a majoritarian US political system, and how that position structures Latinos' ability to achieve their social, economic, and political goals.

*Brown Tide Rising* Duke University Press

A look at how immigration is portrayed in the major media, by examining mainstream magazine

covers on the topic between the major immigration reforms in 1965 and today. Demonstrates how the media both shapes and reflects the volatile politics of immigration.

**Undocumented** Cengage Learning

Rooted in tradición mexicana and infused with Texas food culture, tacos are some of Texans' all-time favorite foods. In *The Tacos of Texas*, the taco journalists Mando Rayo and Jarod Neece take us on a muy sabroso taco tour around the state as they discover the traditions, recipes, stories, and personalities behind puffy tacos in San Antonio, trompo tacos in Dallas, breakfast tacos in Austin, carnitas tacos in El Paso, fish tacos in Corpus Christi, barbacoa in the Rio Grande Valley, and much more. Starting with the basics—tortillas, fillings, and salsas—and how to make, order, and eat tacos, the authors highlight ten taco cities/regions of Texas. For each place, they describe what makes the tacos distinctive, name their top five places to eat, and listen to the locals tell their taco stories. They hear from restaurant owners, taqueros, abuelitas, chefs, and patrons—both well-known and everyday folks—who talk about their local taco history and culture while sharing authentic recipes and recommendations for the best taco purveyors. Whether you can't imagine a day without tacos or you're just learning your way around the trailers, trucks, and taqueros that make tacos happen, *The Tacos of Texas* is the indispensable guidebook, cookbook, and testimonio.

**Latino Politics** Cambridge University Press

Explores what it means to be undocumented in a legal, social, economic and historical context In this illuminating work, immigrant rights activist Aviva Chomsky shows how "illegality" and "undocumentedness" are concepts that were created to exclude and exploit. With a focus on US policy, she probes how people, especially Mexican and Central Americans, have been assigned this status—and to what ends. Blending history with human drama, Chomsky explores what it means to be undocumented in a legal, social, economic, and historical context. The result is a powerful testament of the complex, contradictory, and ever-shifting nature of status in America.

**Covering Immigration** Univ of California Press

Birthright citizenship has a deep and contentious history in the United States, one often hard to square in a country that prides itself on being "a nation of immigrants." Even as the question of citizenship for children of immigrants was seemingly settled by the Fourteenth Amendment, vitriolic debate has continued for well over a century, especially in relation to U.S. race relations. Most recently, a provocative and decidedly more offensive term than birthright citizenship has emerged: "anchor babies." With this book, Leo R. Chavez explores the question of birthright citizenship, and of citizenship in the United States writ broadly, as he counters the often hyperbolic claims surrounding these so-called anchor babies. Chavez considers how the term is used as a political dog whistle, how changes in the legal definition of citizenship have affected the children of immigrants over time, and, ultimately, how U.S.-born citizens still experience trauma if they live in families with undocumented immigrants. By examining this pejorative term in its political, historical, and social contexts, Chavez calls upon us to exorcise it from public discourse and work toward building a more inclusive nation.

*U.S. Immigration in the Twenty-First Century* University of Texas Press

Women's migration within Mexico and from Mexico to the United States is increasing; nearly as many women as men are migrating. This development gives rise to new social negotiations, which have not been well examined in migration studies until now. This pathbreaking reader analyzes how economically and politically displaced migrant women assert agency in everyday life. Scholars across diverse disciplines interrogate the socioeconomic forces that propel Mexican women into the migrant stream and shape their employment options; the changes that these women are making in homes, families, and communities; and the "structural violence" that they confront in the U.S.-Mexico borderlands broadly conceived--all within the economic, social, cultural, and political interstices of the two countries. This reader includes twenty-three essays--two of which are translated from the Spanish--that illuminate women's engagement with diverse social and cultural challenges. One contributor critiques the statistical fallacy of nativist discourses within the United States that portray Chicana and Mexican women's fertility rates as "out of control." Other contributors explore the relation between sexual violence and women's migration from rural areas to urban centers within Mexico, the ways that undocumented migrant communities challenge conventional notions of citizenship, and young Latinas' commemorations of the late, internationally renowned singer Selena. Several essays address workplace intimidation and violence, harassment and rape by U.S. border patrol agents and maquiladora managers, sexual violence, and the brutal murders of nearly two hundred young women near Ciudad Juárez. This rich collection highlights both the structural inequities faced by Mexican women in the borderlands and the creative ways they have responded to them. Contributors. Ernestine Avila, Xóchitl Castañeda, Sylvia Chant, Leo R. Chavez, Cynthia Cranford, Adelaida R. Del Castillo, Sylvanna M. Falcón, Gloria González-López, Maria de la Luz Ibarra, Jonathan Xavier Inda, Rosa Linda Fregoso, Jennifer S. Citizens but Not Americans Beacon Press

One of the few case studies of undocumented immigrants available, this insightful anthropological analysis humanizes a group of people too often reduced to statistics and stereotypes. The hardships of Hispanic migration are conveyed in the immigrants' own voices while the author's voice raises questions about power, stereotypes, settlement, and incorporation into American society. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*The Latino Threat* Stanford University Press

This book examines the relationship between migrants and cities in a time of massive urban restructuring, finding that locality matters in migration research and migrants matter in the reconfiguration of contemporary cities.

**Dreams and Nightmares** Stanford University Press

Numbering over a third of California's population and thirteen percent of the U.S. population, people of Mexican ancestry represent a hugely complex group with a long history in the country.

Contributors explore a broad range of issues regarding California's ethnic Mexican population, including their concentration among the working poor and as day laborers; their participation in various sectors of the educational system; social problems such as domestic violence; their contributions to the arts, especially music; media stereotyping; and political alliances and alignments. Contributors are Brenda D. Arellano, Leo R. Chavez, Yvette G. Flores, Ramón A. Gutiérrez, Aída Hurtado, Olga Nájera-Ramírez, Chon A. Noriega, Manuel Pastor Jr., Armida Ornelas, Russell W. Rumberger, Daniel Solórzano, Enriqueta Valdez Curiel, and Abel Valenzuela Jr.

**Shadowed Lives: Undocumented Immigrants in American Society** Routledge

At fourteen, Liliana Velásquez walked out of her village in Guatemala and headed for the U.S. border, alone. On her two-thousand-mile voyage she was robbed by narcos, rode the boxcars of La Bestia, and encountered death in the Sonoran Desert.
