On November 23, 1887, white vigilantes gunned down unarmed black laborers and their families during a spree lasting more than two hours. The violence erupted due to strikes on Louisiana sugar cane plantations. Fear, rumor and white supremacist ideals clashed with an unprecedented labor action to create an epic tragedy. A future member of the U.S. House of Representatives was among the leaders of a mob that routed black men from houses and forced them to a stretch of railroad track, ordering them to run for their lives before gunning them down. According to a witness, the guns firing in the black neighborhoods sounded like a battle. Author and award-winning reporter John DeSantis uses correspondence, interviews and federal records to detail this harrowing true story.

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.
