Fit Baby, Smart Baby, Your Baby!

Chronicle Books

Flipped classroom pioneers Jonathan Bergmann and Aaron Sams take their revolutionary educational philosophy to the next level in *Flipped Learning*. Building on the energy of the thousands of educators inspired by the influential book *Flip Your Classroom*, this installment is all about what happens next -- when a classroom is truly student-centered and teachers are free to engage with students on an individual level.

FLIPPED LEARNING

Ladybird

Young children often experience anxiety when they are separated from their mothers or fathers. A young guinea pig expresses her distress when her mother and father go away. "Missing you is a heavy, achy feeling. I don't like missing you. I want you right now!" Eventually the little guinea pig realizes that sometimes she and her parents can't be together. When that happens, she knows that others can help. "They can snuggle with me or we can play. It helps me to be warm and close to someone. They remind me that you'll be back."

What does an elephant do? It stomps its foot. Can you? From the creator of such beloved classics as *The Grouchy Ladybug* and *The Mixed-Up Chameleon* comes this interactive story that invites kids to imitate animal movements.

Watching giraffes bend their necks or monkeys wave their arms is fun, but nothing could be better than joining in. From their heads down to their toes, kids will be wriggling, jiggling, and giggling as they try to keep up with these animals! Alligators wiggle, elephants stop, gorillas thump, and giraffes bend. Can you do it? 'I can do it!' is the confidence-building message of this fun-filled interactive picture book. A variety of familiar animals invite young children to copy their antics, and as they play, they will learn such important skills as careful listening, focusing attention, and following instructions. Just as alphabet books introduce the very young child to letters and simple words, *From Head to Toe* introduces the basic body parts and simple body movements. And in the same way that children progress from understanding simple words to reading and writing sentences and stories, so they will progress from simple body movements to dancing, gymnastics, and other sports and activities, with confidence and pleasure. Eric Carle's colorful collages have delighted children for more than a generation. Each book provides hours of fun while encouraging them to stretch their imaginations. His matchless words and illustrations now send out a new challenge: Are you ready? Here we go! Move yourself *From Head to Toe*. A Main Selection of the Children's Book-of-the-Month Club

Kevin's Big Book of Emotions Rebecca Bielawski

This book closes the gap between theory and classroom application by capitalizing on learners' individuality in second or foreign language learning. The book examines the existing literature and theoretical underpinnings of each of the most prominent learner characteristics including anxiety, beliefs, cognitive

abilities, motivation, strategies, styles and willingness to communicate. This strong foundation, coupled with the wide variety of activities that are suggested at the end of each chapter, arms the reader with ideas to conquer the problems created by negative affect and to capitalize on positive, facilitative emotions. The tasks are unrestricted by language and can be modified for use with technology, emergent learners and large classes, making this book a useful resource for both in-service teachers and pre-service teachers in university language teacher education programs.

LITTLE RED RIDING HOOD

Andrews McMeel Publishing

Multiliteracies considers the future of literacy teaching in the context of the rapidly changing English language. Questions are raised about what constitutes appropriate literacy teaching in today's world: a world that is both a global village yet one which local diversity is increasingly important. This is a coherent and accessible overview of the work of the New London Group, with well-known international contributors bringing together their varying national experiences and differences of theoretical and political emphasis. The essays deal with issues such as: the fundamental premises of literacy

pedagogy the effects of technological change multilingualism and cultural diversity social futures and their implications on language teaching. The book concludes with case studies of attempts to put the theories into practice and thereby provides a basis for dialogue with fellow educators around the world.

A hen and a rooster are about to pay a visit to Herr Korbes. They travel with a carriage and they stumble upon some other adventurers on the way. They pick all of them up. And by all we mean a cat, an egg, a duck, a pin, a needle and a millstone. The whole group arrives

eventually. How will the meeting between them and Herr Korbes go? Find out in Brothers Grimm's fairy tale "Herr Korbes". Children and adults alike, immerse yourselves into Grimm's world of folktales and legends! Come, discover the little-known tales and treasured classics in this collection of 210 fairy tales. Brothers Grimm are probably the best-known storytellers in the world. Some of their most popular fairy tales are "Cinderella", "Beauty and the Beast" and "Little Red Riding Hood" and there is hardly anybody who has not grown up with the adventures of Hansel and Gretel, Rapunzel and Snow White. Jacob and Wilhelm Grimm's exceptional literature legacy consists of recorded German and European folktales and legends. Their collections have been translated into all European languages in their lifetime and into every living language today.
