Principles of Macroeconomics for AP® Courses 2e covers the scope and sequence requirements for an Advanced Placement® macroeconomics course and is listed on the College Board's AP® example textbook list. The second edition includes many current examples and recent data from FRED (Federal Reserve Economic Data), which are presented in a politically equitable way. The outcome is a balanced approach to the theory and application of economics concepts. The second edition was developed with significant feedback from current users. In nearly all chapters, it follows the same basic structure of the first edition. General descriptions of the edits are provided in the preface, and a chapter-by-chapter transition guide is available for instructors.

In this inspirational and unflinchingly honest memoir, acclaimed author Reyna Grande describes her childhood torn between the United States and Mexico, and shines a light on the experiences, fears, and hopes of those who choose to make the harrowing journey across the border. Reyna Grande vividly brings to life her tumultuous early years in this “compelling...unvarnished, resonant” (BookPage) story of a childhood spent torn between two parents and two countries. As her parents make the dangerous trek across the Mexican border to “El Otro Lado” (The Other Side) in pursuit of the American dream, Reyna and her siblings are forced into the already overburdened household of their stern grandmother. When their mother at last returns, Reyna prepares for her own journey to “El Otro Lado” to live with the man who has haunted her imagination for years, her long-absent father. Funny, heartbreaking, and lyrical, *The Distance Between Us* poignantly captures the confusion and contradictions of childhood, reminding us that the joys and sorrows we experience are imprinted on the heart forever, calling out to us of those places we first called home. Also available in Spanish as *La distancia entre nosotros*.

Southern intellectual George Fitzhugh provides a passionate defense of slavery in this nearly 400-page volume published in 1857. Further developing ideas in his previous work *Sociology for the South*, Fitzhugh not only defends slavery but attacks the entire liberal tradition. Attacking Adam Smith, John Locke, Thomas Jefferson and others, Fitzhugh argues that free markets are harmful to society by forcing the lower classes into crushing labor and poverty. The answer, Fitzhugh argues, is slavery—not only for blacks, but for whites as well. “Slavery,” he writes, “is a form, and the very best form, of socialism.”

“Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in the course. The order of topics was carefully planned to emphasize the logical progression throughout the

course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics.”--BC Campus website.

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

These guidelines have been approved by the four organizations that make up the Cooperating Parties for the ICD-10-CM: the American Hospital Association (AHA), the American Health Information Management Association (AHIMA), CMS, and NCHS. These guidelines are a set of rules that have been developed to accompany and complement the official conventions and instructions provided within the ICD-10-CM itself. The instructions and conventions of the classification take precedence over guidelines. These guidelines are based on the coding and sequencing instructions in the Tabular List and Alphabetic Index of ICD-10-CM, but provide additional instruction. Adherence to these guidelines when assigning ICD-10-CM diagnosis codes is required under the Health Insurance Portability and Accountability Act (HIPAA). The diagnosis codes (Tabular List and Alphabetic Index) have been adopted under HIPAA for all healthcare settings. A joint effort between the healthcare provider and the coder is essential to achieve complete and accurate documentation, code assignment, and reporting of diagnoses and procedures. These guidelines have been developed to assist both the healthcare provider and the coder in identifying those diagnoses that are to be reported. The importance of consistent, complete documentation in the medical record cannot be overemphasized. Without such documentation accurate coding cannot be achieved. The entire record should be reviewed to determine the specific reason for the encounter and the conditions treated.

A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

### KEY MATHS 7/2

Nelson Thornes

Section 1: Client and Planner Attitudes, Values and Biases Section 1 includes Chapters 1, 2 and 3, and provides an overview of client and planner attitudes, values, and biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This section provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's motivation for achieving their financial goals, examining couple and family financial transparency, and discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's Motivation for Achieving Their Financial Goals (Rick Kahler) Chapter 7: Examining Couple and Family Financial Transparency (Emily Koochel and Meghaan Lurtz) Chapter 8: Mediating Financial Conflict (Sonya Lutter and Emily Koochel) Chapter 9: Facilitating Goal Congruence (Rick Kahler) Chapter 10: Identifying When Money Is Being Used as Manipulation (Saundra D. Davis, Meghaan Lurtz and Megan McCoy) Section 4: Principles of

Counseling Section 4 includes Chapters 11 and 12, and introduces the principles of counseling. This section includes the application of counseling theory in the financial planning process, and discusses strategies for forging trusting client-planner relationships. Chapter 11: Applying Financial Counseling Skills to the Financial Planning Process (Emily Koochel, Megan McCoy and Saundra D. Davis) Chapter 12: Forging Trusting Relationships (Megan McCoy and Sonya Lutter) Section 5: General principles of effective communication Section 5 includes Chapter 13, and provides an overview of the general principles of effective communication. This topic is of great importance as effective communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances. Chapter 14: Navigating Change (Sonya Lutter, Megan McCoy, Saundra D. Davis, and Lance Palmer) Chapter 15: The Necessity of Empathy (Megan McCoy and Sonya Lutter)
