ISLAM BEYOND BORDERS

"As Professor Fazlur Rahman shows in the latest of a series of important contributions to Islamic intellectual history, the characteristic problems of the Muslim modernists—the adaptation to the needs of the contemporary situation of a holy book which draws its specific examples from the conditions of the seventh century and earlier—are by no means new. . . . In Professor Rahman's view the intellectual and therefore the social development of Islam has been impeded and distorted by two interrelated errors. The first was committed by those who, in reading the Koran, failed to recognize the differences between general principles and specific responses to 'concrete and particular historical situations.' . . . This very rigidity gave rise to the second major error, that of the secularists. By teaching and interpreting the Koran in such a way as to admit of no change or development, the dogmatists had created a situation in which Muslim societies, faced with the imperative need to educate their people for life in the modern world, were forced to make a painful and self-defeating choice—either to abandon Koranic Islam, or to turn their backs on the modern world."—Bernard Lewis, *New York Review of Books* "In this work, Professor Fazlur Rahman presents a positively ambitious blueprint for the transformation of the intellectual tradition of Islam: theology, ethics, philosophy and jurisprudence. Over the voices advocating a return to Islam or the reestablishment of the Sharia, the guide for action, he astutely and soberly asks: What and which Islam? More importantly, how does one get to 'normative' Islam? The author counsels, and passionately demonstrates, that for Islam to be actually what Muslims claim it to be—comprehensive in scope and efficacious for every age and place—Muslim scholars and educationists must reevaluate their methodology and hermeneutics. In spelling out the necessary and sound methodology, he is at once courageous, serious and profound."—Wadi Z. Haddad, *American-Arab Affairs*

ISLAMIC EDUCATION AND INDOCTRINATION

Edinburgh University Press

Focuses on the heartland of the Nahdlatul Ulama (NU), the largest Islamic organization in Indonesia, and on the role of ulama (religious leaders), or kiai as they are known in Java, within NU. Based on substantial fieldwork, this study provides an informed glimpse into the intimate relationships among kiai, their role in local and national politics and their leadership of the Islamic community. Argues that the charismatic authority exerted

through the leadership of the kiai in Java has limitations in terms of its legitimacy. At the very least it has boundaries that determine areas or circumstances for its legitimate expression. It also argues that the kiai's influence in politics is not as strong as in other domains.

A HISTORY OF ISLAMIC PHILOSOPHY

Columbia University Press

The Reconstruction of Religious Thought in Islam (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new Introduction by Javed Majeed, this edition of *The Reconstruction* opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

Islamic Thought John Wiley & Sons

There are two main trends distinguishable amongst Muslim reformists - revivalists and modernists. This book charts and analyses the main trends of Muslim reformist political thought in Bukhara. It is the first to utilize original sources preserved in Soviet archives that were previously inaccessible to western scholars. The author has translated numerous original documents from Tajiki and Russian into English. This book thus serves as a useful resource for students of Islam, Central Asia, the former Soviet Union, and of law, politics and philosophy.

The author maintains that without full government cooperation on an international basis, terrorism will not be kept at bay. And to achieve this, one of the first steps is full understanding of the entire subject.

Al Mustasfa Min Ilm Al Usul ANU E Press

Al-Mustasfa min 'ilm al-usul. (On Legal theory of Muslim Jurisprudence) is Imam Ghazali's work on the subject of Usul Al Fiqh. It is considered as one of the four great works in the subject. The other three being, 1. The mu` tazalite ` Abd al-Jabar (d. 415) al-Qadi's al-`umad; 2. abu al-Husain (d. 473) al-Basri's al-mu` tamad(commentary on al-`umad); 3. al-Imam al-Harmian abu al-Ma` ali (d. 478) Juywani's al-Burhan Ghazali's approach to usul al-fiqh, as articulated in this last and greatest work of Law, al-Mustafa, is based on the premise that, in essence, this science is knowledge of how to extract ahkam (rules) from the Shari'ah sources. (As for the science of fiqh, it concerns itself particularly with the Shari'ah rules themselves which have been

established in order to qualify the acts of the locus of obligation, man.) Accordingly, Ghazali views it as imperative that any discourse on *usul* focus on three essential elements: the *ahkam*; the *adilla* (sources); and the means by which rules are extracted from these sources, which ultimately includes examination of the qualifications of the extractor, namely, the *mujtahid*.

Rethinking Tradition in Modern Islamic Thought Cambridge University Press

Political Violence in South Asia Fiqh Dakwah

Confucianism and Catholicism, among the most influential religious traditions, share an intricate relationship. Beginning with the work of Matteo Ricci (1552-1610), the nature of this relationship has generated great debate. These ten essays synthesize in a single volume this historic conversation. Written by specialists in both traditions, the essays are organized into two groups. Those in the first group focus primarily on the historical and cultural contexts in which Confucianism and Catholicism encountered one another in the four major Confucian cultures of East Asia: China, Vietnam, Korea, and Japan. The essays in the second part offer comparative and constructive studies of specific figures, texts, and issues in the Confucian and Catholic traditions from both theological and philosophical perspectives. By bringing these historical and constructive perspectives together, *Confucianism and Catholicism: Reinvigorating the Dialogue* seeks not only to understand better the past dialogue between these traditions, but also to renew the conversation between them today. In light of the unprecedented expansion of Eastern Asian influence in recent decades, and considering the myriad of challenges and new opportunities faced by both the Confucian and Catholic traditions in a world that is rapidly becoming globalized, this volume could not be more timely. Confucianism and Catholicism will be of interest to professional theologians, historians, and scholars of religion, as well as those who work in interreligious dialogue. Contributors: Michael R. Slater, Erin M. Cline, Philip J. Ivanhoe, Vincent Shen, Anh Q. Tran, S.J., Donald L. Baker, Kevin M. Doak, Xueying Wang, Richard Kim, Victoria S. Harrison, and Lee H. Yearley.

Struggling for the Umma Daarul Hijrah Technology

The entire world of Islam is today in profound ferment. From Morocco to China and from Turkestan to the Congo, the 250,000,000 followers of the Prophet Mohammed are stirring to new ideas, new impulses, new aspirations. The story of that strange and dramatic evolution the author has endeavored to tell in the following pages. Considering in turn its various aspects—religious, cultural, political, economic, social—the author has tried to portray their genesis and development, to analyze their character, and to appraise their potency. While making due allowance for local differentiations, the intimate correlation and underlying unity of the various movements have ever been kept in view. Although the book deals primarily with the Muslim world, it necessarily includes the non-Muslim Hindu elements of India. The field covered is thus virtually the entire Near and Middle East. The Far East has not been directly considered, but parallel developments there have been noted and should always be kept in mind.

Contemporary Fatawa Routledge

Political violence has remained an integral part of South Asian society for decades. The region has witnessed and continued to encounter violence for achieving political objectives from above and from below. Violence is perpetrated by the state, by non-state actors, and used by the citizens as a form of resistance. Ethnic insurgency, religion-inspired extremism, and ideology-driven hostility are examples of violent acts that have emerged as challenges to the states which have responded with violence in the form of civil war and through violations of human rights disregarding international norms. This book explores various dimensions of political violence in South Asia, namely in Bangladesh, India, Nepal, Pakistan, and Sri Lanka. Each chapter either speaks to an important aspect of the political violence or provides an overall picture of the nature and scope of political violence in the respective country. Political violence is understood in the larger sense of political, that is, above and beyond institutions, and also as an integral part of social relationships where social norms and the role of individual agency play seminal roles. The contributions in this book incorporate both institutional and non-institutional dimensions of political violence. Exploring how everyday life in South Asian states and societies is transformed by the engagement with violence through direct and indirect methods, this book adopts an interdisciplinary framework; diverse methods are employed – from ethnographic readings to more macro level analyses. The phenomenon is explored from historical, sociological, and political perspectives. This book will be useful as a supplementary text in courses on South Asian Studies in general and South Asian Politics in particular.

Persatuan Islam UUM Press

This book documents and highlights the Deobandi dimension of extremism and its implications for faith-based violence and terrorism. This dimension of radical Islam remains largely ignored or misunderstood in mainstream media and academic scholarship. The book addresses this gap. It also covers the Deobandi diaspora in the West and other countries and the role of its radical elements in transnational incidents of violence and terrorism. The specific identification of the radical Deobandi and Salafi identity of militants is useful to isolate them from the majority of peaceful Sunni and Shia Muslims. Such identification provides direction to governmental resources so they focus on those outfits, mosques, madrassas, charities, media and social medial channels that are associated with these ideologies. This book comes along at a time when there is a dire need for alternative and contextual discourses on terrorism.

Issues of global justice have received increasing attention in academic philosophy in recent years but the gendered dimensions of these issues are often overlooked or treated as peripheral. This groundbreaking collection by Alison Jaggar brings gender to the centre of philosophical debates about global justice. The explorations presented here range far beyond the limited range of issues often thought to constitute feminists' concerns about global justice, such as female seclusion, genital cutting, and sex trafficking. Instead, established and emerging scholars expose the gendered and racialized aspects of transnational divisions of paid and unpaid labor, class formation, taxation, migration, mental health, the so-called resource curse, and conceptualizations of violence, honor, and consent. Jaggar's introduction explains how these and other feminist investigations of the transnational order raise deep challenges to assumptions about justice that for centuries have underpinned Western political philosophy. Taken together the pieces in this volume present a sustained philosophical engagement with gender and global justice. *Gender and Global Justice* provides an accessible and original perspective on this important field and looks set to reframe philosophical reflection on global justice.

This is an anthology of the most significant writing on the doctrinal, intellectual, and spiritual dimensions of Shicim. The works included here foster an interpretive understanding of Shicim in its dogmatic and cognitive aspects. The intent of this book is to balance the attention that has been focused on the political aspect of Shicim. Shicim is often seen, not only as an essentially political phenomenon, but as a creed of violence.

Understanding Shicim in its total reality will encourage a more balanced approach to issues which are viewed mostly politically. While not denying the importance of political manifestations, this book offers an understanding of the often neglected religious beliefs and spiritual practices of this world community.

Islamic Nationhood and Colonial Indonesia I.B. Tauris

Questions about the authenticity and authority of *sunna* have long been of central importance to the study of Islam, especially to those concerned with Islamic law. In this fascinating study, Daniel Brown traces the emergence of modern debates over *sunna*, focusing in particular on Egypt and Pakistan where these controversies have raged most fiercely, and assesses the implications of new approaches to the law on contemporary movements of Islamic revival. Using the case of modern Islam as a starting-point, the author considers how adherents of any great tradition deal with change.

Terrorism in the Asia-Pacific Marshall Cavendish Academic

The first comprehensive survey of Islamic philosophy from the seventh century to the present, this classic discusses Islamic thought and its effect on the cultural aspects of Muslim life. Fakhry shows how Islamic philosophy has followed from the earliest times a distinctive line of development, which gives it the unity and continuity that are the marks of the great intellectual movements of history.
