The Secret Lives of Saints paints a troubling portrait of an extreme religious sect. These zealous believers impose severe and often violent restrictions on women, deprive children of education and opt instead to school them in the tenets of their faith, defy the law and move freely and secretly over international borders. They punish dissent with violence and even death. No, this sect is not the Taliban, but North America's fundamentalist Mormons. Daphne Bramham explores the history and ideas of this surprisingly resilient and insular society, asking the questions that surround its continued existence and telling the stories of the men and women whose lives are so entwined with it—both the leaders and the victims.

In Skills Mania Bob Davis argues passionately that the emphasis in the secondary school classroom must shift from a technocratic, skills-based approach, to teaching and discussion that focuses on real, substantive issues. He also calls for a new emphasis on the teaching of history, a practice that has been sadly lacking in recent years. Two central qualities warm up this book: first the story is told through the author's own teaching, and second, the author presents us with an original and frank point of view. This is a stirring, engaged, and practical book.
