 "The Civil War was America's great national trauma. Like the Napoleonic Wars in nineteenth-century Europe and World War II in the twentieth, the Civil War birthed a new civic order. Politics, economic and social life, and cultural expression all assumed a new cast for the war's participants and their children. Even a century and a half later, after industrialization, urbanization, the dramatic expansion of America's military and political power in the world, and generations of cultural change, the war's impact is plain to see"--

Pulitzer prize-winning epic remains his undisputed masterpiece. It tells of the Joad family who travel West in search of the promised land, and find only broken dreams.

 For sixteen days the armies had grappledÑa grueling horror-show of nonstop battle, march, and maneuver that stretched through May of 1864. Federal commander Ulysses S. Grant had resolved to destroy his Confederate

adversaries through attrition if by no other means. He would just keep at them until he used them up. Meanwhile, Grant's Confederate counterpart, Robert E. Lee, looked for an opportunity to regain the offensive initiative. "We must strike them a blow," he told his lieutenants. The toll on both armies was staggering. But Grant's war of attrition began to take its toll in a more insidious way. Both army commanders—operating on the dark edge of exhaustion, fighting off illness, pressure-cooked by stress—began to feel the effects of that continuous, merciless grind in very personal ways. Punch-drunk tired, they began to second-guess themselves, began missing opportunities, began making mistakes. As a result, along the banks of the North Anna River,

commanders on both sides brought their armies to the brink of destruction without even knowing it. Picking up the story started in the Emerging Civil War Series book *A Season of Slaughter: The Battle of Spotsylvania Courthouse*, historian Chris Mackowski follows the road south to the North Anna River. *Strike Them a Blow: Battle Along the North Anna River* offers a concise, engaging account of the mistakes and missed opportunities of the third—and least understood—phase of the Overland Campaign.

Winner of the 1921 Pulitzer Prize, *The Age of Innocence* is an elegant, masterful portrait of desire and betrayal in old New York—now with a new introduction from acclaimed author Colm Tóibín for the novel's centennial. With vivid power, Wharton evokes a time of gaslit streets, formal dances held in the ballrooms of stately brownstones, and society people "who dreaded scandal more than disease." This is Newland Archer's world as he prepares to marry the docile May Welland. Then, suddenly, the mysterious, intensely nonconformist Countess Ellen Olenska returns to New York after a long absence, turning

Archer's world upside down. This classic Wharton tale of thwarted love is an exuberantly comic and profoundly moving look at the passions of the human heart, as well as a literary achievement of the highest order. Lyndon Johnson, Hubert Humphrey, Richard Russell, and the Struggle for Civil Rights Savas Beatie

A mesmerizing novel of faith, passion, and murder by the author of *The Civil War: A Narrative*. Drawing on themes as old as the Bible, Foote's novel compels us to inhabit lives obsessed with sin and starving for redemption. A work reminiscent of both Faulkner and O'Connor, yet utterly original.

The Shadow Club starts simply enough: the kids who are tired of being second-best get together and, for the first time, talk about how they feel. But soon the members decide to play practical jokes on the first-place winners they envy, and things begin to spin dangerously out of control. "This is a provocative novel . . .

The plot is ingeniously simple and the course of events compelling. Brisk enough to snag a popular audience, but forceful in impact, it will leave readers thinking." (Booklist, starred review)

The history of the United States, as yet unwritten, will show the causes of the "Civil War" to have been in existence during the Colonial era, and to have cropped out into full view in the debates of the several State Assemblies on the adoption of the Federal Constitution, in which instrument Luther Martin, Patrick Henry, and others, insisted that they were implanted. African slavery at the time was universal, and its extinction in the North, as well as its extension in the South, was due to economic reasons alone. The first serious difficulty of the Federal Government arose from the attempt to lay an excise on distilled spirits. The second arose from the hostility of New England traders to the policy of the Government in the war of 1812, by which their special interests

were menaced; and there is now evidence to prove that, but for the unexpected peace, an attempt to disrupt the Union would then have been made. The "Missouri Compromise" of 1820 was in reality a truce between antagonistic revenue systems, each seeking to gain the balance of power. For many years subsequently, slaves--as domestic servants--were taken to the Territories without exciting remark, and the "Nullification" movement in South Carolina was entirely directed against the tariff. Anti-slavery was agitated from an early period, but failed to attract public attention for many years. At length, by unwearied industry, by ingeniously attaching itself to exciting questions of the day, with which it had no natural connection, it succeeded in

making a lodgment in the public mind, which, like a subject exhausted by long effort, is exposed to the attack of some malignant fever, that in a normal condition of vigor would have been resisted. The common belief that slavery was the cause of civil war is incorrect, and Abolitionists are not justified in claiming the glory and spoils of the conflict and in pluming themselves as "choosers of the slain."
