The term may also be used to refer to juveniles of other organisms. A newborn is, in colloquial use, an infant who is only hours, days, or up to one month old. In medical contexts, newborn or neonate refers to an infant in the first 28 days after birth; the term applies to premature, full term, and postmature infants; before birth, the term "fetus" is used. The term "infant" is typically appliedInfant - WikipediaThe Encyclopedia of Infant and Toddler Activities Summary The Encyclopedia of Infant and Toddler Activities: For Children Birth to 3 Years by Kathy Charner With over 300 activities written specifically for infants, toddlers, and two-year-olds, this book will captivate children's imaginations and create wonderful opportunities for learning.The
