The Pearl Harbor Diary of Amber Billows Open Road Media

Hawaii, 7th December 1941, shortly before 8 in the morning: Japanese torpedo bombers launch a surprise attack on the US Pacific fleet anchored in Pearl Harbor. The devastating attack claims the lives of over 2,400 American soldiers, sinks or damages 18 ships and destroys nearly 350 aircraft. The US Congress declares war on Japan the following day. In this vivid and lively book, Takuma Melber breathes new life into the dramatic events that unfolded before, during and after Pearl Harbor by putting the perspective of the Japanese attackers at the centre of his account. This

is the dimension commonly missing in most other histories of Pearl Harbor, and it gives Melber the opportunity to provide a fuller, more definitive and authoritative account of the battle, its background and its consequences. Melber sheds new light on the long negotiations that went on between the Japanese and Americans in 1941, and the confusion and argument among the Japanese political and military elite. He shows how US intelligence and military leaders in Washington failed to interpret correctly the information they had and to draw the necessary conclusions about the Japanese war intentions in advance of the attack. His account of the battle itself is informed by the latest research and benefits from including the planning and post-raid assessment by the

Japanese commanders. His account also covers the second raid in March 1942 by two long-range seaplanes which was intended to destroy the shipyards so that ships damaged in the initial attack could not be repaired. This balanced and thoroughly researched book deepens our understanding of the battle that precipitated America's entry into the war and it will appeal to anyone interested in World War II and military history.

**The Untold Story of Pearl Hart, the Wild West's Most Notorious Woman Bandit** Penguin

An intimate journey across and in search of America, as told by one of its most beloved writers, in a deluxe centennial edition In September 1960, John Steinbeck embarked on a journey across America. He felt that he might have lost touch with the country, with its speech, the smell of its grass and trees, its color and quality of light, the pulse of its people. To reassure himself, he set out on a voyage of rediscovery of the American identity,

accompanied by a distinguished French poodle named Charley; and riding in a three-quarter-ton pickup truck named Rocinante. His course took him through almost forty states: northward from Long Island to Maine; through the Midwest to Chicago; onward by way of Minnesota, North Dakota, Montana (with which he fell in love), and Idaho to Seattle, south to San Francisco and his birthplace, Salinas; eastward through the Mojave, New Mexico, Arizona, to the vast hospitality of Texas, to New Orleans and a shocking drama of desegregation; finally, on the last leg, through Alabama, Virginia, Pennsylvania, and New Jersey to New York. Travels with Charley in Search of America is an intimate look at one of America's most beloved writers in the later years of his life—a self-portrait of a man who never wrote an explicit autobiography. Written during a time of upheaval and racial tension in the South—which Steinbeck witnessed firsthand—Travels with Charley is a stunning evocation of America on the eve of a tumultuous

decade. This Penguin Classics Deluxe Edition also features French flaps and deckle-edged paper. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. On the heels of the much-anticipated movie "Pearl Harbor", acclaimed author Barry Dennenberg has written a moving story of one girl's devastating experience at Pearl Harbor, December 7, 1941. Pearl Harbor, on the Island of O'ahu, Hawaii, was attacked by the Japanese Imperial Navy at approximately 8:00 A.M., Sunday morning, December 7, 1941. The surprise attack involved a striking force of 353 Japanese aircraft. Nineteen U.S. ships, including five battleships, and about 150 U.S. planes were destroyed; more than 2,300 soldiers, sailors and civilians were killed. President Roosevelt declared that it was "a day that will live in infamy." On December 8, Congress declared a state of war with Japan; three days later Germany and Italy declared war on the United States.

On the morning of December 7, 1941, after serving breakfast and turning his attention to laundry services aboard the USS West Virginia, Ship's Cook Third Class Doris "Dorie" Miller heard the alarm calling sailors to battle stations. The first of several torpedoes dropped from Japanese aircraft had struck the American battleship. Miller hastily made his way to a central point and was soon called to the bridge by Lt. Com. Doir C. Johnson to assist the mortally wounded ship's captain, Mervyn Bennion. Miller then joined two others in loading and firing an unmanned anti-aircraft machine gun—a

weapon that, as an African American in a segregated military, Miller had not been trained to operate. But he did, firing the weapon on attacking Japanese aircraft until the .50-caliber gun ran out of ammunition. For these actions, Miller was later awarded the Navy Cross, the third-highest naval award for combat gallantry. Historians Thomas W. Cutrer and T. Michael Parrish have not only painstakingly reconstructed Miller's inspiring actions on December 7. They also offer for the first time a full biography of Miller placed in the larger context of African American service in the United States military and the beginnings of the civil rights movement. Like so many sailors and soldiers in World War II, Doris Miller's life was cut short. Just two years after the attack on Pearl Harbor, Miller was aboard the USS Liscome Bay when it was sunk by a Japanese submarine. But the name—and symbolic image—of Dorie Miller lived on. As Cutrer and Parrish conclude, "Dorie Miller's actions at Pearl Harbor, and the legend that they engendered, were directly responsible for helping to roll back the

navy's then-to-fore unrelenting policy of racial segregation and prejudice, and, in the chain of events, helped to launch the civil rights movement of the 1960s that brought an end to the worst of America's racial intolerance."

"A Pulitzer Prize-winning reporter chronicles the 12 days leading up to the Japanese attack on Pearl Harbor, examining the miscommunications, clues, missteps and racist assumptions that may have been behind America's failure to safeguard against the tragedy,"--NoveList.

"In the end," writes Tori McClure, "I know I rowed across the Atlantic to find my heart, but in the beginning, I wasn't aware that it was missing."

During June 1998, Tori McClure set out to row across the Atlantic Ocean by herself in a twenty-three-foot plywood boat with no motor or sail.

Within days she lost all communication with shore, but nevertheless she decided to keep going. Not only did she lose the sound of a friendly voice, she lost updates on the location of the Gulf Stream and on the weather.

Unfortunately for Tori, 1998 is still on record as the worst hurricane season in the North Atlantic. In deep solitude and perilous conditions, she was nonetheless determined to prove what one person with a mission can do. When she was finally brought to her knees by a series of violent storms that nearly killed her, she had to signal for help and go home in what felt like complete disgrace. Back in Kentucky, however, Tori's life began to change in unexpected ways. She fell in love. At the age of thirty-five, she embarked

on a serious relationship for the first time, making her feel even more vulnerable than sitting alone in a tiny boat in the middle of the Atlantic. She went to work for Muhammad Ali, who told her that she did not want to be known as the woman who "almost" rowed across the Atlantic Ocean. And she knew that he was right. In this thrilling story of high adventure and romantic quest, Tori McClure discovers through her favorite way—the hard way—that the most important thing in life is not to prove you are superhuman but to fully to embrace your own humanity. With a wry sense of humor and a strong voice, she gives us a true memoir of an explorer who maps her world with rare emotional honesty.
