COOPER OLSEN

Greenwood Publishing Group

In this fresh assessment of Ovid's fascinating poem *Fasti*, Alessandro Barchiesi provides a new vision of the interaction between Ovid and the renowned ruler Augustus. *Fasti*, a poem about the holidays and feast days of the Roman calendar, was written while Ovid was in Rome and revised while he was in exile on the barbarian frontier, banished by Augustus from the cultured society of Rome. Ovid's work in exile evinces complicated motives; he addresses Augustus and begs him to lift the despised exile, but at the same time covertly critiques Augustus's "New Rome." Although recent scholarship has concentrated on the oppositions between poet and ruler revealed in Ovid's work, Barchiesi's analysis transcends the opposition of pro-Augustan or anti-Augustan readings. In a lively, vigorous narrative that relies on close textual analysis, Barchiesi underscores the important poetic choices as well as the political considerations made by Ovid in *Fasti*. Ultimately, his analysis leads us to a more nuanced understanding of the relationship between patrons and poets. Both scholars and general readers will find a newly meaningful and interesting Ovid in these pages. Translated with revisions from Il poeta e il principe: Ovidio e il discorso Augusteo (1994).

 In a strange land where people must buy and swallow the words they wish to speak, Phileas hopes to communicate his love to Cybele using the small vocabulary he has been able to afford.

PHILEAS'S FORTUNE

e-artnow

We live in a world where the one-time opposition between things and humans has been transformed, where the center of contemporary sensibility is the encounter between philosophy and sexuality, where sex extends well beyond both the act and the body. We live in a world where to be sexy is to ignore the distinctions between animate and inanimate objects of desire, where the aesthetics of sex are being revolutionized. An organic sexuality, based on sex difference and driven by desire and pleasure, is being replaced by a neutral, inorganic and artificial sexuality, a sexuality always available but indifferent to beauty, age or form, a sexuality freed by thought from nature. The *Sex Appeal of the Inorganic* takes the reader on a radical, new tour of Western philosophy—from Descartes, Kant and Hegel to Heidegger, Wittgenstein and Sartre—to reframe our understanding of personal experience and the aesthetic, to examine how, if we are to remember how to feel, we must become a thing who feels, we must think ourselves closer to the inorganic world and move further from our bodies.

Africa Counts A&C Black

This classic study notes the first appearance of a mathematical symbol and its origin, the competition it encountered, its spread among writers in different countries, its rise to popularity, its eventual decline or ultimate survival. The author's coverage of obsolete notations — and what we can learn from them — is as comprehensive as those which have survived and still enjoy favor. Originally published in 1929 in a two-volume edition, this monumental work is presented here in one volume.

Profession of Faith of a Savoyard Vicar CRC Press

This is the first complete translation into English of Hugh of St. Victor's *Didascalicon*, composed in the late 1130's.

Teach Ye Diligently St Pauls BYB

The breathtakingly rapid pace of change in computing makes it easy to overlook the pioneers who began it all. Written by Martin Davis, respected logician and researcher in the theory of computation, *The Universal Computer: The Road from Leibniz to Turing* explores the fascinating lives, ideas, and discoveries of seven remarkable mathematicians. It tells the stories of the unsung heroes of the computer age — the logicians. The story begins with Leibniz in the 17th century and then focuses on Boole, Frege, Cantor, Hilbert, and Gödel, before turning to Turing. Turing's analysis of algorithmic processes led to a single, all-purpose machine that could be programmed to carry out such processes—the computer. Davis describes how this incredible group, with lives as extraordinary as their accomplishments, grappled with logical reasoning and its mechanization. By investigating their achievements and failures, he shows how these pioneers paved the way for modern computing. Bringing the material up to date, in this revised edition Davis discusses the success of the IBM Watson on Jeopardy, reorganizes the information on incompleteness, and adds information on Konrad Zuse. A distinguished prize-winning logician, Martin Davis has had a career of more than six decades devoted to the important interface between logic and computer science. His expertise, combined with his genuine love of the subject and excellent storytelling, make him the perfect person to tell this story. *Liar Moon* The Discovery of Tutankhamun's Tomb (Illustrated Edition)

A Christmas Carol in Prose, Being a Ghost Story of Christmas, usually known just as *A Christmas Carol* is a fairy-tale novel by a British classic Charles Dickens, that was published in 1843. It consists of five chapters, or staves as the author named them. Among all the stories from Christmas Books by Dickens this one became the most popular story about Christmas in Great Britain and outside the country. The main character is an old gloomy miser Ebenezer Scrooge, who doesn't love anyone or anything except his money. He doesn't understand why everybody is so happy about Christmas and with disgust, refuses the invitation from his kind nephew to celebrate this holiday together with his family. On Christmas Eve, the ghost of his former business partner Jacob Marley appeared in front of Scrooge, and it changed him drastically...

The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's anti-apartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life—an epic of struggle, setback, renewed hope, and ultimate triumph.

Mimesis A&C Black

Praise for Ben Pastor's *Lumen*: "Pastor's plot is well crafted, her prose sharp. . . . A disturbing mix of detection and reflection."—Publishers Weekly "Rivets the reader with its twist of historical realities. A historical piece, it faithfully reproduces the grim canvas of war. A character study, it captures the thoughts and actions of real people, not stereotypes."—The Free Lance-Star "And don't miss *Lumen* by Ben Pastor. . . . An interesting, original, and melancholy tale."—Literary Review Italy, September 1943. The Italian government switches sides and declares war on Germany. The north of Italy is controlled by the fascist puppets of Germany; the south liberated by Allied forces fighting their way up the peninsula. Having survived hell on the Russian front, Wehrmacht major and aristocrat Baron Martin von Bora is sent to Verona. He is ordered to investigate the murder of a prominent local fascist: a bizarre death threatening to discredit the regime's public image. The prime suspect is the victim's twenty-eight-year-old widow Clara. Haunted by his record of opposition to SS policies in Russia, Bora must watch his step. Against the backdrop of relentless anti-partisan warfare and the tragedy of the Holocaust, a breathless chase begins. Ben Pastor, born and now back in Italy, lived for thirty years in the United States, working as a university professor in Vermont. The first in the Martin Bora series, *Lumen*, was published by Bitter Lemon Press in May 2011. *Philosophies of Desire in the Modern World* Strelbytskyy Multimedia Publishing

The *Priapeia* is a collection of ninety-five poems in various meters on subjects pertaining to the phallic god Priapus. It was compiled from literary works and inscriptions on images of the god by an unknown editor, who composed the introductory epigram. From their style and versification it is evident that the poems belong to the classical period of Latin literature. Some, however, may be interpolations of a later period. These poems were posted upon statues of Priapus that stood in the midst of gardens as the protector of the fruits that grew therein. These statues were often crude carvings made from tree trunks. They roughly resembled the form of a man with a huge phallus. The statues also promoted the gardens' fertility. The verses are attributed variously to Virgil, Ovid, and Domitius Marsus. However, most authorities on the matter regard them to have been the work of a group of poets who met at the house of Maecenas, amusing themselves by writing tongue-in-cheek tributes to the garden Priapus. (Maecenas was Horace's patron.) Others, including Martial and Petronius, were thought to have added more verses in imitation of the originals.

Study by a mathematical scholar on the ways in which African people count, keep time and records, play games, use geometry in art and architecture, etc. Based on research in Nigeria and East Africa.

Number and Pattern in African Culture Puffin Books

Welcome to the Black Triangle, New York's decadent district of opium dens, gambling casinos, drunken sailors, gaudy hookers, and back room abortions. The queen of this unsavory neighborhood is Black Lena Shanks, whose family leads a ring of female criminals-women skilled in the art of cruelty. Only a few blocks away, amidst the elegant mansions and lily-white reputations of Gramercy Park and Washington Square, lives Judge James Stallworth. On a crusade to crush Lena's evil empire, the

judge has sentenced three of her family members to death. And now she wants revenge. One Sunday, all the Stallworths receive invitations-to their own funerals. Can even the wealth and power of the Stallworth family protect them from Lena's diabolical lust for vengeance? This first-ever republication of Michael McDowell's chilling classic of revenge features a new introduction by Christopher Fowler and cover art by Mike Mignola. "Riveting, terrifying, and just absolutely great ... Michael McDowell must now be regarded as the finest writer of paperback originals in America." - Stephen King "A big and impressive book, darkly Dickensian in its scope and complexity ... a novel of entirely human horror." - Michael E. Stamm "One of the best writers of horror in this country." - Peter Straub
