HEAT METERS TECHEM

Heat Meters Techem Heat meters from Techem offer you the right solution for any installation situation and any requirements. Our heat meters have a future-proof electronic counter to allow wireless data transfer by radio of small or large flow volumes. The inconvenience of meter reading appointments becomes a thing of the past. Meter Reading & Devices - Techem: techem.com Heat meters Radio measuring capsule heat meter compact V Precise heat consumption measurement for low flow quantities and remote readout without having to enter the apartment - using the measuring capsule heat meter compact V. Product description The radio-prepared measuring capsule meter is a data calculator, volumetric flowmeter and Radio measuring capsule heat meter compact V - Techem Water meters With Techem you find an one-stop coordinated program: a complete range of hot and cold water meters in all necessary sizes and accuracy as needed, easy to fit and with all necessary accessories. Techem: Devices Heat meters / cooling meters Heat and cooling meters to measure energy consumption Customers around the world have relied on our experience and the quality

and reliability of our products for more than 100 years. We sell more than 300.000 heat and cooling meters each year, which places us among the Heat meters Cooling meters - Zenner Techem's radio provides the best method for consumption-based reading and accurate billing of cooling, water and other energy sources. Energy consumption and cost is demonstrated clearly at a glance at our Techem bill. Techem: Reading & Billing & Collection Heat meter °C 2...130 Cold meter: °C 2...130 Heat-/Cold-meter °C 2...130 Medium in volume unit water Storage temperature °C -25...60 (empty device) Nominal pressure PN16 m 1.2 (the cable isn't removable) Cable of temperature sensor m 1.5 (the cable isn't removable) ø 5.2 PT 500 Battery 3.65 VDC, 2 x A-cell-Lithium Radio-ready ultrasonic heat meter type 3.2 - Techem Techem offers a comprehensive range of BTU meters, all specially designed for flexible reading and billing at cooling circuits. Features of the BTU meters and Techem's service: Flow direction recognition using special flow sensor mechanisms Enhanced with installation and commissioning diagnostic display feature BTU meters - Techem ANNEX MI-004 HEAT METERS The relevant requirements of Annex I, the specific requirements and the conformity assessment procedures listed in this Annex, apply to heat meters defined ... HEAT METERS - techem.be With more than 60 years of experience and innovation, Techem is a perfect partner

in measuring and billing heat, cooling and hot water. The devices, technologies and methods we use are state of the art. They also fulfill current national legislation and are fully EED-compliant. Energy Efficiency Directive - Techem: techem.com Facts and Figures about Techem. Techem is a leading global energy service provider for the real estate sector and private homeowners. We promote greater awareness of energy and water consumption in more than 20 countries. Techem has around 3.640 employees at 60 locations in Germany and in foreign subsidiaries and partner companies worldwide. Techem: Our company heat cost allocators, heat meters and water meters equipped with Techem radio technology have been installed worldwide. Further advances in technological innovation With the adapter term energy-saving system, Techem has started a revolution in heat energy saving through intelligent heating control - Techem Landis+Gyr is the global industry leader in metering solutions with more than 30 years experiences in ultrasonic heat measurement. The latest product is the ULTRAHEAT® T330 - a compact ultrasonic ... Landis+Gyr Ultrasonic Heat Meter - Cooling Meter ULTRAHEAT T330 Description Our compact cartridge PolluCom® C thermal energy meter with coaxial connection is used to measure energy consumption in heating or cooling circuits. The PolluCom® C can also be supplied as a combined heating/cooling meter. You can program the switch-over point between heating and cooling energy metering in this version. PolluCom® C Thermal Energy Meter - Sensus The compact heat and cold meter ultra S3 has a wide variety of uses. For house handover stations connected to local and district heating and cooling and equally for central

heating and cooling systems for residential buildings where itemised invoice-based billing is required. Compact heat and cold meter ultra S3 - Techem We are the Estonian representative of TECHEM, a developer of heat and water metering systems and remote reading supplies with the most experience in the world. We also represent the products of the largest metering system manufacturer in the Baltic States - Axis Industries - which are sold under the AXIOMA brand. Keep water and heat costs under control | Optimatic Heat allocation meters are devices attached to individual radiators in buildings and apartments. They enable consumption to be allocated to the residents of a building. This provides transparency... Making heat allocation fair and easy - with ista heat cost allocators Heat meter Precisely determine and easily read off heating consumption: The classic S3 heat meter data calculator for advanced requirements. Product description Data calculator The combination of data calculator, temperature sensors and volumetric flowmeter results in the complete heat meter for numerous application situations. Heat meter data calculator/ Temperature sensor - Techem USED - heat meter TECHEM COMPACT V Qn 0,6 1,5 2,5. heat meter TECHEM compact V vario S, different variations, including connection thread or without. ... Original Techem MK mounting key for water and heat meter M62x2. buy Techem heat cost allocators and heat and water meters On the grounds of garnering heat and electricity savings, most of the countries have been installing heat meters in industrial, commercial, and residential buildings. The large-scale deployment of... Water meters With Techem you find an one-stop coordinated program: a complete range of hot and cold water meters in all

necessary sizes and accuracy as needed, easy to fit and with all necessary accessories.
