Problems of the WeekThe Problem of the
Week presents an opportunity for 2nd to
8th graders to apply their creativity to
mathematical problem solving. It is NOT
a required assignment. It is available to
those students who find the question
interesting and who are looking to
stretch their imagination.Problem of the
Week - GoogleThe Problems of the
Month are organized below by grade

level and main topic for that level. These
grade-level expectations are just
estimates and should not be used as an
absolute minimum expectation or
maximum limitation for students. The
structure of a Problem of the Month is a
shallow floor and a high ceiling, so that
all students can productively engage,
struggle, and persevere.Download
Problems of the Month | Inside
MathematicsFourth grade teachers can
use the problems in this book for
students in need of extensions or with
their whole class for instruction on
problem solving. In addition, parents
may wish to use these problems at home
with their child as a replacement for the
traditional math workbook or to
supplement their child's school
experiences.
