Television and Sexuality Harper Collins

A collection of essays which present a balanced survey between theoretical discussions on the one hand and case-study research on the other. This volume is an ethnographic study of material

cultures.

A Biography Yale University Press

A candid, feminist, and personal deep dive into the science and culture of pregnancy and motherhood Like most first-time mothers, Angela Garbes was filled with questions when she became pregnant. What exactly is a placenta and how does it function? How does a body go into labor? Why is breast best? Is wine totally off-limits? But as she soon discovered, it's not easy to

find satisfying answers. Your obstetrician will cautiously quote statistics; online sources will scare you with conflicting and often inaccurate data; and even the most trusted books will offer information with a heavy dose of judgment. To educate herself, the food and culture writer embarked on an intensive journey of exploration, diving into the scientific mysteries and cultural attitudes that surround motherhood to find answers to questions that had only previously been given in the form of advice about

what women ought to do—rather than allowing them the freedom to choose the right path for themselves. In *Like a Mother*, Garbes offers a rigorously researched and compelling look at the physiology, biology, and psychology of pregnancy and motherhood, informed by in-depth reportage and personal experience. With the curiosity of a journalist, the perspective of a feminist, and the intimacy and urgency of a mother, she explores the emerging science behind the pressing questions women have about everything from miscarriage to complicated labors to postpartum changes. The result is a visceral, full-frontal look at what's really happening during those nine life-altering months, and why women deserve access to better care, support, and information. Infused with humor and born out of awe, appreciation, and understanding of the female body and its strength, *Like a Mother* debunks common myths and dated assumptions, offering guidance and camaraderie to women navigating one of the biggest and most profound changes in their lives.

Tragedy Yale University Press

Offers new observations on the persistence of God in modern times, and considers how the war on terror and a post-9/11 society has impacted atheism.

A STUDY IN MARXIST LITERARY THEORY

USA Today Bestseller Christianity Today 2022 Book Award Finalist (History & Biography) "A powerful work of skillful research and personal insight."--Publishers Weekly Biblical womanhood--the belief that God designed women to be submissive wives, virtuous mothers, and joyful homemakers--pervades North American Christianity. From choices about careers to roles in local churches to relationship dynamics, this belief shapes the everyday lives of evangelical women. Yet biblical womanhood isn't biblical, says Baylor University historian Beth Allison Barr. It arose from a series of clearly definable historical moments. This book moves the conversation about biblical womanhood beyond Greek grammar and into the realm of church history--ancient, medieval, and modern--to show that this belief is not divinely ordained but a product of human civilization that continues to creep into the church. Barr's historical insights provide context for contemporary teachings about women's roles in the church and help move the

conversation forward. Interweaving her story as a Baptist pastor's wife, Barr sheds light on the #ChurchToo movement and abuse scandals in Southern Baptist circles and the broader evangelical world, helping readers understand why biblical womanhood is more about human power structures than the message of Christ. *The Politics of Cultural Pluralism* Yale University Press

A trenchant analysis of sacrifice as the foundation of the modern, as well as the ancient, social order The modern conception of sacrifice is at once cast as a victory of self-discipline over desire and condescended to as destructive and archaic abnegation. But even in the Old Testament, the dual natures of sacrifice, embodying both ritual slaughter and moral rectitude, were at odds. In this analysis, Terry Eagleton makes a compelling argument that the idea of sacrifice has long been misunderstood. Pursuing the complex lineage of sacrifice in a lyrical discourse, Eagleton focuses on the Old and New Testaments, offering a virtuosic analysis of the crucifixion, while drawing together a host of philosophers, theologians, and texts--from Hegel, Nietzsche, and Derrida to the Aeneid and *The Wings of the Dove*. Brilliant meditations on death and eros, Shakespeare and St. Paul, irony and hybridity explore the meaning of sacrifice in modernity, casting off misperceptions of barbarity to reconnect the radical idea to politics and revolution.

Americanized: Rebel Without a Green Card John Wiley & Sons

This collection of readings on the concept of ideology is brought together by the Marxist critic, Terry Eagleton. His introduction traces the historical evolution of ideology and examines in a more theoretical style the various meanings of the word and their significance. The readings begin with the first English translations of some of the writing of the French founder of the concept in the eighteenth century. They then move from the enlightenment to Hegel and Marxism, with particular emphasis on Marx and Engels themselves. They also look at other eighteenth-century traditions of thought such as Nietzsche and Freud. All the readings are theoretical rather than examples of 'ideology at work' and will be of interest to undergraduate students of cultural, political and historical studies concerned with ideology, as well as students of English literature.

A brilliant introduction to the philosophical concept of materialism and its relevance to contemporary science and culture In this eye-opening, intellectually stimulating appreciation of a fascinating school of philosophy, Terry Eagleton makes a powerful argument that materialism is at the center of today's important scientific and cultural as well as philosophical debates. The author reveals entirely fresh ways of considering the values and beliefs of three very different materialists—Marx, Nietzsche, and Wittgenstein—drawing striking comparisons between their philosophies while reflecting on a wide array of topics, from ideology and history to language, ethics, and the aesthetic. Cogently demonstrating how it is our bodies and corporeal activity that make thought and consciousness possible, Eagleton's book is a valuable exposition on philosophic thought that strikes to the heart of how we think about ourselves and live in the world.

Reason, Faith, and Revolution HarperCollins

In development as a television series from Reese Witherspoon's Hello Sunshine production company and ABC Studios! This hilarious, poignant and true story of one teen's experience growing up in America as an undocumented immigrant from the Middle East is an increasingly necessary read in today's divisive world. Perfect for fans of Mindy Kaling and Trevor Noah's books. "Very funny but never flippant, Saedi mixes '90s pop culture references, adolescent angst and Iranian history into an intimate, informative narrative." —The New York Times At thirteen, bright-eyed, straight-A student Sara Saedi uncovered a terrible family secret: she was breaking the law simply by living in the United States. Only two years old when her parents fled Iran, she didn't learn of her undocumented status until her older sister wanted to apply for an after-school job, but couldn't because she didn't have a Social Security number. Fear of deportation kept Sara up at night, but it didn't keep her from being a teenager. She

desperately wanted a green card, along with clear skin, her own car, and a boyfriend. *Americanized* follows Sara's progress toward getting her green card, but that's only a portion of her experiences as an Iranian-"American" teenager. From discovering that her parents secretly divorced to facilitate her mother's green card application to learning how to tame her unibrow, Sara pivots gracefully from the terrifying prospect that she might be kicked out of the country at any time to the almost-as-terrifying possibility that she might be the only one of her friends without a date to the prom. This moving, often hilarious story is for anyone who has ever shared either fear. **FEATURED ON NPR'S FRESH AIR A NYPL BEST BOOK OF THE YEAR A CHICAGO PUBLIC LIBRARY BEST OF THE BEST BOOK SELECTION A SCHOOL LIBRARY JOURNAL BEST BOOK OF THE YEAR FOUR STARRED REVIEWS!** "A must-read, vitally important memoir. . . . define, Gayatri Chakravorty Spivak, one of the world's foremost literary theorists, poses these questions from within the postcolonial enclave.

Culture is a defining aspect of what it means to be human. Defining culture and pinpointing its role in our lives is not, however, so straightforward. Terry Eagleton, one of our foremost literary and cultural critics, is uniquely poised to take on the challenge. In this keenly analytical and acerbically funny book, he explores how culture and our conceptualizations of it have evolved over the last two centuries—from rarified sphere to humble practices, and from a bulwark against industrialism's encroaches to present-day capitalism's most profitable export. Ranging over art and literature as well as philosophy and anthropology, and major but somewhat "unfashionable" thinkers like Johann Gottfried Herder and Edmund Burke as well as T. S. Eliot, Matthew Arnold, Raymond Williams, and Oscar Wilde, Eagleton provides a cogent overview of culture set firmly in its historical and theoretical contexts, illuminating its collusion with colonialism, nationalism, the decline of religion, and the rise of and rule over the "uncultured" masses. Eagleton also examines culture today, lambasting the commodification and co-option of a force that, properly understood, is a vital means for us to cultivate and enrich our social lives, and can even provide the impetus to transform civil society.

Death, Desire and Loss in Western Culture is a rich testament to our ubiquitous preoccupation with the tangled web of death and desire. In these pages we find nuanced analysis that blends Plato with Shelley, Hölderlin with Foucault. Dollimore, a gifted thinker, is not content to summarize these texts from afar; instead, he weaves a thread through each to tell the magnificent story of the making of the modern individual.

A MEMOIR OF A FAMILY AND CULTURE IN CRISIS

Harper Collins

This is written from memory, unfortunately. If I could have brought with me the material I so carefully prepared, this would be a very different story. Whole books full of notes, carefully copied records, firsthand descriptions, and the pictures—that's the worst loss. We had some bird's-eyes of the cities and parks; a lot of lovely views of streets, of buildings, outside and in, and

some of those gorgeous gardens, and, most important of all, of the women themselves.

[Pleasures and Pains](#) John Wiley & Sons

A new account of tragedy and its fundamental position in Western culture In this compelling account, eminent literary critic Terry Eagleton explores the nuances of tragedy in Western culture—from literature and politics to philosophy and theater. Eagleton covers a vast array of thinkers and practitioners, including Nietzsche, Walter Benjamin, and Slavoj Žižek, as well as

key figures in theater, from Sophocles and Aeschylus to Shakespeare and Ibsen. Eagleton examines the political nature of tragedy, looking closely at its connection with periods of historical transition. The dramatic form originated not as a meditation on the human condition, but at moments of political engagement, when civilizations struggled with the conflicts that beset them. Tragedy, Eagleton demonstrates, is fundamental to human experience and culture.
