Global Marketing provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically, and apply tools and techniques creatively in order to respond decisively in a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred. A shift toward greater consideration of services marketing as more companies move away from manufacturing. A focus on emerging markets to equip students with the skills necessary to take advantage of the opportunities that these rapidly growing regions present. Chapters on social media, innovation, and technology teach students how to

incorporate these new tools into their marketing strategy. New material on sustainability, ethics, and corporate social responsibility; key values for any modern business. Short cases and examples throughout the text show students how these principles and techniques are applied in the real world. Longer cases provide instructors and students with rich content for deeper analysis and discussion. Covering key topics not found in competing books, Global Marketing will equip students with the knowledge and confidence they need to become leading marketing managers. A companion website features an instructor's manual with test questions, as well as additional exercises and examples for in-class use.

Islamic jihadists win with marketing. Terrorism is a form of marketing; an act of communication as much as it is an act of violence. While much has been written about the growing sophistication of marketing by Islamic jihadists, what is missing is a solution. Today, the Middle East is going through tectonic change with a promising new generation hungry for a different world. We need a better approach. We must fight back with a marketing battle plan. *Weaponized Marketing: Defeating Islamic Jihad with Marketing That Built the World's Top Brands* offers a blueprint for success in the marketplace of ideas. This book breaks new ground by applying proven business methods to intractable military and diplomatic problems. It provides a comprehensive understanding of how marketing works and how terrorists use it. Most importantly, it presents an effective alternative to the failing efforts to argue through a "counter-narrative" and spread through social media. Where bullets, bombs, policy papers, and press releases have failed, a marketing approach—radical for government—has a solid track record for businesses that built the world's most successful brands.

MARKETING MANAGEMENT

World Scientific Publishing Company

This book highlights the development of retail marketing in developing economies and presents this sector as a major area of growth and business opportunity. With a special focus on supermarket chains, the authors show that the advancement of technology and infrastructure means that there are now increased electronic capabilities for data collection, giving retailers more opportunities to pursue micro and macro-marketing strategies. The authors explain the evolution of this new era of marketing and the associated impact on all stakeholders, especially consumers. Taking the example of Ghana, which is considered a leader among African nations in the use of loyalty cards, the authors are able to set a benchmark for other emerging countries, especially those that are experiencing similar trends. The book is a valuable resource for students, researchers and foreign companies wishing to expand their knowledge of the marketing strategies employed by emerging economies in Sub-Saharan Africa.
