A first entry in a planned trilogy tracing the rise and fall of the famous Hun finds the Roman Empire of the early fifth century placing its fate in the hands of the Master-General Aetius when the ruthless leader of a barbarous horse-warrior race begins attacking border tribes. Original.

The Enemies of Rome Arx Publishing, LLC

One of the most powerful men in late antiquity, Attila's peerless Hunnic empire stretched from the Ural to the Rhine river. In a series of epic campaigns dating from the AD 430s until his death in AD 453, he ravaged first the Eastern and later the Western Roman Empire, invading Italy in AD 452 and threatening Rome itself. Lavishly illustrated, this new analysis of his military achievements examines how Attila was able to sweep across Europe, the tactics and innovations he employed and the major battles he faced, including one of his few major setbacks, the defeat at the battle of Chalons in AD 451.

THE SWORD OF ATTILA

iUniverse

Once there was a fierce and warlike tribe called the Huns. They had driven the Goths to seek new homes. They came from Asia into Southeastern Europe and took possession of a large territory lying north of the River Danube. During the first half of the fifth century the Huns had a famous king named Attila. He was only twenty-one years old when he became their king. Even though he was young, he was very brave and ambitious, and he wanted to be a great and powerful king. Not far from Attila's palace there was a great rocky cave in the mountains. In this cave lived a strange man called the "Hermit of the Rocks." No one knew his real name, or from what country he had come. He was very old, with a wrinkled face and long gray hair and beard. Many persons believed that he was a fortune-teller, so people often went to him to ask what would happen to them. One day, shortly after he became king, Attila went to the cave to get his fortune told. "Wise man," said he, "look into the future and tell me what is before me in the path of life." The hermit thought for a few moments. Then he said, "O King, I see you a famous conqueror, the master of many nations. I see you going from country to country, defeating armies and destroying cities. Men shall call you the 'Fear of the World.'" Read the story of this warrior king who attempted to conquer the Roman Empire. Ages 7 to 10. Educational Versions include exercises designed to meet Common Core standards. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Many books are appropriate for hi-lo readers. LEGENDS OF THE ANCIENT WORLD: THE LIFE AND LEGACY OF ATTILA THE HUN

W. W. Norton & Company

In The Death of Attila, the great Hun leader dominates the late

Roman world; in his shadow, a Hun warrior and a German princeling form a fragile comradeship. When Attila dies, the world around them crumbles, and the two men face terrible choices.

Attila's Treasure Gareth Stevens Publishing LLLP

A portrait based on popular history explores the Hun king's pivotal role in the final demise of the Roman empire, describing how his barbarian forces employed brutal battlefield tactics and held Western Europe in sway for some fifteen years in the mid-fifth century. By the author of *Genghis Khan*. 15,000 first printing. *Legends of the Ancient World* Infobase Publishing Discusses the Roman Empire, its collapse at the hands of barbarian hordes led by Attila the Hun, and Attila's legacy.

Attila Macmillan

The Story of Attila in Prose is the first critical edition and translation of the thirteenth century Franco-Italian prose text the *Estoire d'Atile* en prose. Preserved in two anonymous and untitled manuscripts composed between the last quarter of the thirteenth century and the beginning of the fourteenth century, the story recounts the fictional founding of Venice after the invasion of Aquileia by Attila the Hun. The manuscripts, located in Zagreb and Venice, detail Attila's pagan mother, her union with a dog, and his feral birth, as well as his unusual death during a chess match and the origins of the Holy Grail. This edition and translation are based on the Zagreb manuscript, which was only recently discovered. The book includes a full critical apparatus containing rejected readings and variants from the Venetian manuscript, and a thorough introduction that discusses the literary value of the text, its possible sources, and its influence on later literature. It is important reading for both historians of medieval Europe and literary critics.

THE FRAGMENTARY HISTORY OF PRISCUS

Dell

Tired of languishing in exile, Attila returns home to seize the throne and unite all the Hunnish clans into a single unbeatable army, all in preparation for facing a mighty foe--the Roman Empire. By the author of *Rubicon*. Original.

ATTILA, THE HUNS AND THE ROMAN EMPIRE, AD 430-476

Ozymandias Press

Only one man has the power and courage to preserve Rome from utter destruction-but to save the Empire, he must first overcome the Sword of Attila. In an epic campaign that historians have called the most crucial in history, two great warriors match strength and tactics in a colossal struggle for the fate of the known world. Ultimate authority in the fragile Western Empire rests on the shoulders of one man. Adhering to the ancient code of honor on which Rome was founded, he wages a single-minded struggle against barbarian invasions and internal decadence to prevent a catastrophic reign of terror. Respected and feared by friends and enemies alike, he is Count Flavius Aetius, Supreme General of the Legions-better known to history as the Last of the Romans. Facing him is a foe who has led his Asian hordes on a rampage of conquest and terror, from the barren steppes of the north to the very sands of Persia, ruthlessly destroying vast

swaths of civilization. Now he and his army of fierce horsemen have penetrated deep into Europe and are poised to strike at the heart of the empire, the city of Rome itself. The entire world shudders at mention of this man's name-Attila the Hun. Horrified victims call him the Scourge of God. On a sweltering June day in A.D. 451, the fates of these two titans of antiquity collide in a conflict of such massive carnage and heroism as to dwarf nearly every other single battle in history. Though little known today, this monumental contest on a remote plain in Gaul determined the fate of Europe-and the very course of civilization. In *The Sword of Attila*, Michael Curtis Ford once again demonstrates his mastery as a chronicler of battle, honor, and ancient worlds.

ATTILA, KING OF THE HUNS

CreateSpace

AD 439: The Roman Empire is on the brink of collapse. With terrifying speed a Vandal army has swept through the Roman provinces of Spain and North Africa, conquering Carthage and threatening Roman control of the Mediterranean. But a far greater threat lies to the east, a barbarian force born in the harsh steppelands of central Asia, warriors of unparalleled savagery who will sweep all before them in their thirst for conquest - the army of Attila the Hun. For a small group of Roman soldiers and a mysterious British monk, the only defense is to rise above the corruption and weakness of the Roman emperors and hark back to the glory days of the army centuries before, to find strength in history. Led by Flavius, a young tribune, and his trusty centurion Macrobius, they fight a last-ditch battle against the Vandals in North Africa before falling back to Rome, where they regroup and prepare for the onslaught to come. Flavius learns that the British monk who had fled with them from Carthage is more than he seems, and he is drawn into a shady world of intelligence and intrigue under the aegis of Flavius' uncle Aetius, commander-in-chief of the Roman armies in the west, the man who alone has the power to rally Rome and her allies and save the western empire from annihilation. Aetius is desperate to buy time until his army is strong enough to confront the Huns on the field of battle, and meanwhile will do anything to undermine their strength. Together they devise a plan of astonishing audacity that will take Flavius and Macrobius across the frontier and far up the river Danube to the heart of darkness itself, to the stronghold of the most feared warrior-emperor the world has ever known - and into alliance with the emperor's daughter, a warrior-princess who has sworn vengeance against her father for the death of her mother. In the showdown to come, in the greatest battle the Romans have ever fought, victory will go to those who can hold high the most potent symbol of war ever wrought by man - the sacred sword of Attila. *A Historical Treatise* Emereo Publishing

CHBiographies

Barbarian Terror and the Fall of the Roman Empire

Macmillan

This book considers the great cultural and geopolitical changes in western Eurasia in the fifth century CE. It focuses on the Roman Empire, but it also examines the changes taking place in northern Europe, in Iran under the Sasanian Empire, and on the great Eurasian steppe. Attila is presented as a contributor to and a symbol of these transformations.

Attila the Hun Routledge

Explains how the legendary military commander's principles of

leadership can be applied to contemporary business situations in the '90s.

[Enemy of Ancient Rome](#) Createspace Independent Publishing Platform

Discusses the life, accomplishments, and times of Attila, the leader of the Huns who brought about the end of the Roman Empire.

Attila the Hun Pen & Sword Military

In AD 453 Attila, with a huge force composed of Huns, allies and vassals drawn from his already-vast empire, was rampaging westward across Gaul (essentially modern France), then still nominally part of the Western Roman Empire. Laying siege to Orleans, he was only a few days march from extending his empire from the Eurasian steppe to the Atlantic. He was brought to battle on the Cataluanian Plain and defeated by a coalition hastily assembled and led by Aetius. Who was this man that saved Western Europe from the Hunnic yoke? While Attila is a household name, his nemesis remains relatively obscure.

[Attila, the Hun](#) Macmillan

Describes the life of Attila, leader of the Huns, and his attempt to conquer the Roman Empire.

THE CAMBRIDGE COMPANION TO THE AGE OF ATTILA

St. Martin's Griffin

A portrait based on popular history explores the Hun king's pivotal role in the final demise of the Roman empire, describing how his barbarian forces employed brutal battlefield tactics and held Western Europe in sway for some fifteen years in the mid-fifth century. By the author of Genghis Khan. Reprint. 15,000 first printing.

The Sword of Attila Macmillan

Reincarnation of Attila the Hun? Does the past decide the future? When East meets West, the clash determines whether Attila becomes the barbarian of history or a modern hero who forges his own destiny. The love of a woman, a woman of his own choosing, can either destroy him and his family or make him a warrior that battles for his own heart. Praise for Peter Hargitai's previous novel *Attila: A Barbarian's Bedtime Story*:
[The Barbarian King Who Challenged Rome](#) Pen and Sword

Evan Schultheis reconsiders the evidence for Attila the Hun's most famous battle, the climax of his invasion of the Western Roman Empire that had reached as far as Orleans in France. Traditionally considered one of the pivotal battles in European history, saving the West from conquest by the Huns, the Cataluanian Fields is here revealed to be significant but less immediately decisive than claimed. This new study exposes oversimplified views of Attila's army, which was a sophisticated and complex all-arms force, drawn from the Huns and their many allies and subjects. The 'Roman' forces, largely consisting of Visigoth and Alan allies, are also analyzed in detail. The author, a reenactor of the period, describes the motives and tactics of both sides. Drawing on the latest historiography and research of the primary sources, and utilizing Roman military manuals, Evan Schultheis offers a completely new tactical analysis of the battle and a drastic reconsideration of Hun warfare, the Roman use of federates, and the ethnography of the Germanic peoples who fought for either side. The result is a fresh and thorough case study of battle in the 5th century.
