Learning Lab Product description. Build your own electronic
circuits with the Electronics Learning Lab. It has over 200 projects
that teach you about transistors, diodes, capacitors, oscillators,
electronics circuits and schematic symbols. Plus, it has light-

emitting diodes, an LED display and an analog panel meter that gives more visual options when building projects. Amazon.com: RadioShack 28-280 Electronics Learning Lab ... The Electronics Learning Lab contains 2 lab manuals (one covering Basic Electronics, the other Digital Logic), about 20 ICs, a handful of transistors, numerous resistors and capacitors, and jumper wires (among a few other things). The console itself has numerous built in potentiometers, LEDs, a relay, a transformer, a buzzer, speaker, DPDT switch, and many other components ready to use. RadioShack Electronics Learning Lab |

BrainDeadProjects.com Build your own electronic circuits with the Electronics Learning Lab.
