**The Rule of 3 | A Life of Productivity** The Rule Of Three WillThe rule of three is a writing principle that suggests that a trio of events or characters is more humorous, satisfying, or effective than other numbers. The audience of this form of text is also thereby more likely to remember the information conveyed because having three entities combines both brevity and rhythm with having the smallest amount of information to create a pattern.Rule of three (writing) - WikipediaThe Rule of Three (also Three-fold Law or Law of Return) is a religious tenet held by some Wiccans, Neo-Pagans and occultists.It states that whatever energy a person puts out into the world, be it positive or negative, will be returned to that person three times. Some subscribe to a variant of this law in which return is not necessarily threefold.Rule of Three (Wicca) - WikipediaThe rule of Three has a great plot, a fantastic idea! However, I felt as though the characters were way underdeveloped and the dialogue was bland. The whole idea of devastation and the mob mentality is interesting, but I felt as though it wasn't well executed.The Rule of Three (The Rule of Three, #1) by Eric WaltersAn early incarnation of the Rule of Three appeared in Gerald Gardner's novel, High Magic's Aid, in the form of "Mark well, when thou receivest good, so equally art bound to return good threefold." It later appeared as a poem published in a magazine back in 1975. Later this evolved into the notion among new witches that there is a spiritual law in effect that everything you do comes back to you.The Rule of Three - The Law of Threefold ReturnThe rule of three is the economic theory that large mature markets are typically dominated by three competitors. The theory suggests that a new industry with hundreds of competitors will experience mergers, acquisitions and shakeouts that see three large firms emerge.What is the Rule Of Three? - SimplicableWhat is The Rule of Three? The rule of three is a very general rule in speaking, in writing, and in music, that states that concepts or ideas presented in threes are inherently more interesting, more enjoyable, and more memorable.. It's no accident that the number three is pervasive in well-known stories: the three little pigs, the three musketeers, or the three wise men.How to Communicate Better Using the Rule of ThreeFollowing the rule of three religiously, however, becomes monotone and dull.
