How to write the book you want in the time you have! We all have twenty four hours in a day, 365 days in a year. And in theory, how we spend that time is entirely up to us. In practice? Not so much! I bet you find that

most of those hours are filled in for you. We have childcare, and work, and food prep, and bill paying, and housework, and yard work, and myriad other tasks that eat up bits and bites of that precious time, until there is very little left. And so most would-be novelists never write their books, because they "don't have time". They simply cannot figure out how to add anything else in. Many of us have trouble finding the time to brush our teeth more than once a day - fitting in a novel, too? It looks too

big. Looms too large. It's a mountain of a task, and there seems to be no way to confront something that will chew up that many hours in the small bits of time we have available. In this newly enhanced second edition of a bestselling book, we'll address that lack of time, and we're also going to look at the novel as a set of smaller bites. By the time you are done, you will have all the tools you need to finish your novel - to fit that important work into your already busy life. With about twice the

content of the first edition, the new Coffee Break Novelist is filled with tips on making your passion into reality! Are you tired of not having the time to accomplish your dream of writing a novel? Have you written a book before, but it took forever, and you don't know how you'll ever finish the next one? This book is for you.

I was motivated to write this memoir by my beloved mother. When I

started to write my first book, Lilith's Awakening, Mom came to me in a dream, telling me, "Write about what you know and are good at." The next day, I told my husband, and he did agree with Mom. I decided to take their advice and put my first book on hold. My dear clients had a big part in the writing process when I told them about it. The concept of the book is how I wanted to introduce Turkish coffee images reading. It contains all my memories and life experiences since I

became a coffee messenger-about thirty years of perceptive experiences with loved ones who have crossed.

I'd stay with this tall and handsome demon, but there's no coffee.

Emergency room nurse Jill is used to double shifts and triple espressos.

When her attempt to take her cat to the vet ends with her landing in a medieval fantasy world, she can't believe her luck.

Literally can't believe it. Jill must've bumped her head, and this is a very

confusing dream. She can just go for a ride with this beefy demon and then wake up. Except the dream turned out to be an unfortunate reality filled with dangerous foes who want to either kill or use her. The only person she can trust is Vinsor, the demon that dragged her away to a gloomy castle and locked her in the dungeon. The demon that can manipulate Jill's emotions. In this crazy old fast-moving world, it's nice to slow down, chill out, look around, and sip your way through a great cup of coffee. Maybe two. It's nice to have somewhere to go where the rough edge of life can't get to you...and the smooth edge can give you all the time and space you need

to be with the people you want to be with. Love & Coffee is one of those rare creatures: a story about emotions and taste buds. About all the ups and downs of life squeezed into an ongoing chronicle and split into fascinating five minute reads. Or fifteen if you take it nice and slow. Perfect whether you have a short attention span...or a long one. It's a pick-me-up, put-me-down, never-lose-your-place kinda book about romance and coffee beans. About feeling good, trying not to feel

bad, and listening to the kind of music that puts problems on the back burner, even if only for a little while. It's about looking back, looking forward, and looking right here, right now. About love won, love lost, love desperately needed, even love out of sight but definitely not out of mind. It's about great Espressos, Cappuccinos, Lattes, and Americanos. Intense relationships and casual friendships. Strangers who meet for half an hour then go their separate ways. And couples who

mate for life and go everywhere together. Love & Coffee is a sanctuary. One packed full of smiles and laughter, tears and heartaches, peace and quiet, passions and conversations. And good old fashioned thinking. On the outside, it might seem like the story of an ordinary city centre coffee shop. On the inside, it's a million miles away from ordinary. Maybe two. And right at its heart, serving up the best damned drink on the planet, is Little Italy. Someone who

doesn't take any crap, never turns away anyone in need, and always seems to know more about everyone else than she lets on. So come in and join me. Sit yourself down. Warm yourself up. See the world through my eyes...

The Coffee Lover's Book
Ideas to Books

West's needs are simple. Cup of coffee, a book, and a quiet moment away from the drama that plagues his family life. His local coffeeshop should have offered all of those things. Instead it offers

Noah, a photographer as ridiculously attractive as he is infuriating. Noah is everything West shouldn't want. After a meet-cute gone horribly wrong the two would be happy never to see each other again. Too bad the universe keeps throwing them together. Too bad Noah is desperately in need of a new model for his upcoming gallery show. And too bad West can't get Noah off his mind. When he agrees to model for Noah on the spur of the moment, he figures that will be the end of it

since they can barely stand each other. One and done. But modeling for Noah draws out a side of West that he barely knew existed, a side that's addicted to the hot look in Noah's eye when they're alone in the studio together. Especially when the clothes come off. Maybe they're more suited than either of them realized. And after all, what's a little sex between enemies? [Coffee Self-Talk for Dudes](#) AuthorHouse
The Coffee Thief Returns is both humorous and

Feelings are a powerful thing. As a teen, Angel Leya experienced the angst of transition and

chronicled her thoughts and emotions in poetry. This collection displays those poems, along with some brand new ones, in a thoughtful series of themes that will take you from the depths of despair and uncertainty to the heights of hope. Each poem has been carefully paired with photography to enrich the experience. It's a symphony of stimuli that's sure to take you on an emotional journey through the good and bad of the human heart, as told by a young woman whose faith buoyed her

through the darkest of depths. Perfect for fans of Rupi Kaur's Milk and Honey and The Princess Saves Herself in This One by Amanda Lovelace. Also available in print, for those who like to display their "coffee table" books.

BrixBaxter Publishing Butterflies have always fascinated photographers and writers Deborah Carney and Vinny O'Hare. In this book they share the first in a series of books featuring their

photographs of butterflies with quotes, proverbs and poetry about butterflies. In addition to a quote or poem on each page, the butterfly is also identified. Each of the books in our Butterfly art and photography series will have the butterflies identified. A Butterfly Lights Beside Us A butterfly lights beside us, like a sunbeam... and for a brief moment it's glory and beauty belong to our world... but then it flies on again, and although we wish it could have stayed, we are so thankful to have
