Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we

like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

The world is virtual, but the danger is real in book one of the bestselling *Mortality Doctrine* series, the next phenomenon from the author of the *Maze Runner* series, James Dashner. Includes a sneak peek of *The Fever Code*, the highly-anticipated

conclusion to the *Maze Runner* series—the novel that finally reveals how the maze was built! The *VirtNet* offers total mind and body immersion, and the more hacking skills you have, the more fun it is. Why bother following the rules when it's so easy to break them? But some rules were made for a reason. Some technology is too dangerous to fool with. And one gamer has been doing exactly that, with murderous results. The government knows that to catch a hacker, you need a hacker. And they've been watching Michael. If he accepts their challenge, Michael will need to go off the *VirtNet* grid, to the back alleys and corners of the system human eyes have never seen—and it's possible that the line between game and reality will be blurred forever. The author who brought you the #1 *New York Times* bestselling *MAZE RUNNER* series and two #1 movies—*The Maze Runner* and *The Scorch Trials*—now brings you an electrifying adventure trilogy an edge-of-your-seat adventure that takes you into a

world of hyperadvanced technology, cyber terrorists, and gaming beyond your wildest dreams . . . and your worst nightmares.

Praise for the Bestselling MORTALITY DOCTRINE series: "Dashner takes full advantage of the Matrix-esque potential for asking 'what is real.'" —io9.com "Set in a world taken over by virtual reality gaming, the series perfectly capture[s] Dashner's hallmarks for inventiveness, teen dialogue and an ability to add twists and turns like no other author."

—MTV.com "A brilliant, visceral, gamified mash-up of The Matrix and Inception, guaranteed to thrill even the non-gaming crowd." —Christian Science Monitor

Faking It in Alaska Penguin UK

A darkly comic novel of suspense, literary idolatry and one-upmanship, and political intrigue from one of the leading writers of the twentieth century, the acclaimed author of *Lolita*. "Half-poem, half-prose...a creation of perfect beauty, symmetry, strangeness, originality and moral truth. One of the great works of art of this century." —Mary McCarthy, *New York Times* bestselling author of *The Group* An ingeniously constructed parody of detective fiction and learned commentary, *Pale Fire* offers a cornucopia of deceptive pleasures, at the center of which is a 999-line poem written by the literary genius John Shade just before his death.

Surrounding the poem is a foreword and commentary by the demented scholar Charles Kinbote, who interweaves adoring literary analysis with the fantastical tale of an assassin from the land of Zembla in pursuit of a deposed king. Brilliantly constructed and wildly inventive, Vladimir Nabokov's witty novel achieves that rarest of things in literature—perfect tragicomic balance.

Loosely based on the *Odyssey*, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

Understanding the Dreams You Dream: Biblical Keys for Hearing God's Voice in the Night not only provides insight into your dreams and life, but also includes a comprehensive dictionary of dream symbols! You will be guided through the complex world of dreams by a minister with decades of experience receiving, understanding, and interpreting dreams of his own and for others. I have received many helpful messages from God through dreams. In addition to being helped through my own dreams, I have seen many other people obtain help and comfort by using their dreams as an aid to healing in pastoral counseling. -Ira Milligan Through Scripture-based meditation, much can be understood about your dreams, but many Christians don't know how to meditate. This problem is addressed in three different ways: • Specific, detailed directions are given on how and upon what to meditate. • Personal examples of dreams from the author's own experiences. • Practical dictionary of symbol definitions is included. This book presents both normal and not-so-normal dream situations. You will learn that to apply only one type of dream interpretation to all dreams is restricting each symbol to only one possible

definition, which is incorrect. And you will learn how to tell the difference between a dream from God—and those from evil sources.
