PERFORMANCE, FUEL ECONOMY AND EMISSIONS

Springer Science & Business Media
When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was

a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

A critical cultural materialist introduction to the study of global entertainment media. In *Global Entertainment Media*, Tanner Mirrlees undertakes an analysis of the ownership, production, distribution, marketing, exhibition and consumption of global films and television shows, with an eye to political economy and cultural studies. Among other topics, Mirrlees examines: Paradigms of global entertainment media such as cultural imperialism and cultural globalization. The business of entertainment media: the structure of capitalist culture/creative industries (financers, producers, distributors and exhibitors) and trends in the global political economy of entertainment media. The "governance" of global entertainment media: state and inter-state media and cultural policies and regulations that govern the production, distribution and exhibition of entertainment media and enable or impede its cross-border flow. The new international division of cultural labor (NICL): the cross-border production of entertainment by cultural workers in asymmetrically interdependent media capitals, and economic and cultural concerns surrounding runaway productions and co-productions. The economic motivations and textual design features of globally popular entertainment forms such as blockbuster event films, TV formats, glocalised lifestyle brands and synergistic media. The cross-cultural reception and effects of TV shows and films. The World Wide Web, digitization and convergence culture.

Discover the Korean War through the eyes of the journalist who covered it in this installment of the New York Times bestselling graphic novel series *In 1950*, Marguerite Higgins (1920–1966) was made bureau chief of the Far East Asia desk for the New York Herald Tribune. Tensions were high on the Korean peninsula, where a border drawn after WWII split the country into North and South. When the North Korean army crossed the border with Soviet tanks, it was war. Marguerite was there when the Communists captured Seoul. She fled with the refugees heading south, but when the bridges were blown over the Han River, she was trapped in enemy territory. Her eyewitness account of the invasion was a newspaper smash hit. She risked her life in one dangerous situation after another—all for the sake of good story. Then she was told that women didn't belong on the frontlines. The United States Army officially ordered her out of Korea. She appealed to General Douglas MacArthur, and he personally lifted the ban on female war correspondents, which allowed her the chance to report on many of the major events of the Korean War. Nathan Hale's *Hazardous Tales* are graphic novels that tell the thrilling, shocking, gruesome, and TRUE stories of American history. Read them all—if you dare!
