Praise for *Financial Statement Analysis A Practitioner's Guide* Third Edition "This is an illuminating and insightful tour of financial statements, how they can be used to inform, how they can be used to mislead, and how they can be used to analyze the financial health of a company." -Professor Jay O. Light Harvard Business School "Financial Statement Analysis should be required reading for anyone who puts a dime to work in the securities markets or recommends that others do the same." -Jack L. Rivkin Executive Vice President (retired) Citigroup Investments "Fridson and Alvarez provide a valuable practical guide for understanding, interpreting, and critically assessing financial reports put out by firms. Their discussion of profits-'quality of earnings'-is particularly insightful given the recent spate of reporting problems encountered by firms. I highly recommend their book to anyone interested in getting behind the numbers as a means of predicting future profits and stock prices." - Paul Brown Chair-Department of Accounting Leonard N. Stern School of Business, NYU "Let this book assist in financial awareness and transparency and higher standards of reporting, and accountability to all stakeholders." -Patricia A. Small Treasurer Emeritus, University of California Partner, KCM Investment Advisors "This book is a polished gem covering the analysis of financial statements. It is thorough, skeptical and extremely practical in its review." -Daniel J. Fuss Vice Chairman Loomis, Sayles & Company, LP

The study examines the tourism and tourism financing in triangular form. The first is the impact of tourism and tourism financing on the economic growth and development of the country. The second is the response of the Tourism Business Enterprises (demand side) about the pattern and effectiveness of tourism financing and the third one is the views of the Banks and Financial Institutions (supply side). It uses both primary and secondary data and applies various mathematical

and statistical tools such as ratio analysis, correlation coefficient, Phi-coefficient, Chi-square test, t-Test for two sample means and regression analysis (OLS). It found a significant impact of tourism and tourism financing in the economic development of the country. Added to this, it found a significant variation in the structure of financing among various types of business (accommodation, travel, adventure and other business) and ownership forms of businesses (proprietorship firm, partnership firm, private limited and Public limited) based on the common size statements. It incorporated the magnitude of tourism financing, structure, pattern and the indicators of financing as well as the effectiveness of tourism financing.

The authors wrote this text in response to the absence in the market of a text that would meet the needs of finance majors, but would still be accessible to all students. In many cases, as many as 80% of undergraduate corporate finance courses are filled with non-finance majors who are either intimidated by this course or who don't understand why they have to take the class (or both!). This text addresses the challenges all professors face: keeping students at varying degrees of ability and interest motivated and invested in the material.
