A Comprehensive Guide to Unlocking the Transformative Power

of Gems and Stones

North Atlantic Books
A book of wisdom teachings and rituals that invoke ancient Egyptian deities to awaken human consciousness • Provides guided shamanic visualizations to invoke 26 of the most significant gods • Takes the reader through shamanic portals of death, rebirth, and illumination • Reconciles internal conflict through a sacred marriage of heart and mind
In *Shamanic Mysteries of Egypt*, Nicki Scully and Linda Star Wolf renew humanity's connection to the ancient gods of Egypt, the neteru. Voices from these divine ancestors remind us of the healing power of the heart, and call us to bring their consciousness into the present to help us remember our true nature as divine humans with sacred purpose. The authors provide rituals, meditations, and rites of passage to help us meet our personal and planetary challenges with grace, wisdom, and love. The shamanic initiations

provided are invoked, directly experienced, and transformed into embodied wisdom that awakens consciousness and illumines the intelligence of the heart. Scully and Star Wolf focus their rituals on 26 of the primary divine entities that preside over the ancient mysteries whose roots are in Old Kingdom and pre-historic Egypt. This fresh interpretation of ancient mysteries unites the energies of Thoth and Anubis to guide us through the current cycle of Earth changes and to help us remember who we really are at heart. Through these passages, Anubis lives up to his ancient title as the Opener of the Way, and Thoth as the Architect of Higher Learning. Together they evoke their power to unite heart and mind in the sacred marriage that brings transformation, renewal, and the awakening of consciousness.

A ground-breaking modern manual on an ancient art, *Real Alchemy* draws on both modern scientific technology and

ancient methods. A laboratory scientist and chemist, Robert Allen Bartlett provides an overview of the history of alchemy, as well as an exploration of the theories behind the practice. Clean, clear, simple, and easy to read, *Real Alchemy* provides excellent directions regarding the production of plant products and transitions the reader-student into the basics of mineral work—what some consider the true domain of alchemy. New students to practical laboratory alchemy will enjoy reading *Real Alchemy* and hopefully find the encouragement needed to undertake their own alchemical journey. Bartlett also explains what the ancients really meant when they used the term “Philosopher’s Stone” and describes several very real and practical methods for its achievement. Is the fabled Philosopher’s Stone an elixir of long life or is it a method of transforming lead into gold? Judge for yourself.

A guide to the advanced practice of Inner Alchemy, which brings the physical body into balance with the energy body • Presents the second level of Inner Alchemy practices that use the eight forces of the pakua (bagwa) to collect, gather, and condense chi in the body • Explains how to balance negative emotional energy with positive energy to detoxify, nourish, and integrate the physical and the energy body with the forces of nature • Shows how to collect and channel the greater energies of the stars and planets to create unity between what is above and below Cosmic Fusion is an advanced level of Inner Alchemy that teaches how to bring the physical body into balance with the energy body--a necessary prerequisite for the formation of the universal body, the pearl of compassion that is one with Original Creation and the Universal Tao. Cosmic Fusion works with the expression of the eight pakua (bagwa) of Chinese cosmology, through which all creation is divided and given form, nature, and definition. Cosmic Fusion exercises establish the spiritual body firmly in the

lower abdomen, where chi energy is gathered and distributed to all parts of the body--and into all creation. The fully illustrated exercises in this book also show how to collect and channel the greater energies of the stars and planets. By "fusing" all these different energies together, a harmonious whole is created, a unity of what is above and below. As heavenly and earthly forces are brought into balance, the life perfectly suited to the practitioner manifests, allowing the spirit body to prepare to move into worlds beyond--and back.

Using the ancient art of spagyrics for treatment of today's health problems • Contains detailed indications for using alchemical preparations therapeutically • Shows how the essences work holistically to heal the mind, body, and spirit with the energetic qualities of the plant • Provides effective therapy for a wide range of physical and mental disorders Spagyrics is a branch of medicinal alchemy that enhances the healing properties already existing in plants. Developed by Paracelsus, the magus and alchemist of the early 16th century, spagyrics is a holistic therapy that promotes healing at all levels of the human being--body, soul, and spirit. Spagyric essences harness the dynamic life force in plants that triggers recovery from the energetic imbalance of illness. The harmonizing and balancing qualities of spagyric essences differ from other plant remedies and aromatherapy oils because they not only include the plant's energetic information but also incorporate the salt

of the plant, from which all toxic matter has been purged. The preparation of this alchemical medicine makes it possible to capture the full therapeutic spectrum of plants, including the cosmic energies they have absorbed.

Alchemical Medicine for the 21st Century contains detailed indications for using these alchemical preparations to treat both physical and mental disorders. The author shows, for example, that the tincture made from dandelion is especially potent on liver-related ailments and also raises the spirit and frees the patient from anger and bitterness. The immune system is also boosted by this essence, providing tonic effects for allergy sufferers. The author, a homeopath since 2000, also shows how these spagyric essences can be potentized homeopathically.

Taoism and the use of the five elemental forces of nature for healing, says Gilles Marin, are esoteric, understandable only through daily experience with a knowledgeable mentor. Marin's 25 years of clinical practice teaching the ancient Taoist method of Chi Nei Tsang, which uses hands-on techniques and Taoist meditations to help clients heal, uniquely qualifies him for the task. Five Elements, Six Conditions shows how simple and practical the ancient Taoist healing principles are and how effectively they deepen all methods of healing, including modern medical approaches. Step-by-step, he shows how to work with instead of against the body, whereby healing becomes not only possible but inevitable. His clear language, along with color-coded maps and diagrams, enables readers to understand the alchemical principles formed and refined over

hundreds of years. Each chapter includes specific exercises and meditations to help anyone integrate the essence of the teaching and develop at the physical, mental, emotional, and spiritual levels.

This book explores the evolutionary and spiritual core of the acupuncture meridian systems known as the 8 Extraordinary Vessels. These channels are the alchemical cauldron where Heaven and Earth, soul and spirit, Ling and Shen, Hun and Po, fire and water, form and consciousness, and astrology and morphology take place. They are the blueprint of our lives and our spiritual curriculum.

The eight extraordinary vessels are about understanding the self beyond the layers of social conditioning and programming. This book takes us through a shamanic process in the language of Chinese Medicine and Daoism.

Alchemy of the Extraordinary Llewellyn Worldwide

From the New York Times bestselling author of *The Zookeeper's Wife*, an ambitious and enlightening work that combines an artist's eye with a scientist's erudition

to illuminate, as never before, the magic and mysteries of the human mind. Long treasured by literary readers for her uncommon ability to bridge the gap between art and science, celebrated scholar-artist Diane Ackerman returns with the book she was born to write. Her dazzling new work, *An Alchemy of Mind*, offers an unprecedented exploration and celebration of the mental fantasia in which we spend our days—and does for the human mind what the bestselling *A Natural History of the Senses* did for the physical senses. Bringing a valuable female perspective to the topic, Diane Ackerman discusses the science of the brain as only she can: with gorgeous, immediate language and imagery that paint an unusually lucid and vibrant picture for the reader. And in addition to explaining memory, thought, emotion, dreams, and language acquisition, she reports on the latest discoveries in neuroscience and addresses controversial subjects like the effects of trauma and male versus female brains. In prose that is not simply accessible but also

beautiful and electric, Ackerman distills the hard, objective truths of science in order to yield vivid, heavily anecdotal explanations about a range of existential questions regarding consciousness, human thought, memory, and the nature of identity.
